

# CSR MAGAZINE

2015

CSR Magazine is a Publication of PPEPCA

## Message from President

Pakistan Petroleum Exploration & Production Companies Association (PPEPCA) is pleased to present 2015 CSR Magazine highlighting Social Welfare and community development work by its twenty five(25) member companies operating in all four provinces of Pakistan. This unique sector of Industry in Pakistan takes welfare

of the community in their areas of operation very seriously. The PPEPCA 2015 CSR Magazine provides platform to all the Oil and Gas Exploration & Producing companies paying major emphasizing on Health, Education, Sports, Water Supply and Drainage and well being of the community residing in these generally depressed areas.

During the past years the Social Welfare, meetings their needs in times of floods and earthquake and community uplift, improving their economic conditions has touched the lives of numerous villagers and improved their standing in the society.

The PPEPCA members have proudly provided their success stories in working with the local administration, community leader and elected members in the current issue. I would like to compliment the National and Multinational companies to voluntarily execute the projects that would be providing benefit for a long time to come.

I would also like to pay my thanks and appreciate efforts of the Editorial Board of the CSR Expert Committee who sacrificed their leisure timing in bringing this enlarged CSR Magazine to coincide with the Annual Technical Conference organized by the Pakistan Chapters of Pakistan Association of Petroleum Geoscientist (PAPG) and Society of Petroleum Engineers (SPE).

### Wasim A. Zuberi

President CSR Expert Committee.

'PPEPCA CSR Expert Committee' has been providing all E&P companies working in Pakistan with a platform, where companies can share and learn from each other's experiences related to social investment portfolios. It has also served as a forum to sensitize relevant stakeholders in enabling conducive environment for a sustainable

business in country.

CSR Magazine was an effort to highlight the contributions that all E&P companies are undertaking not only under their statutory obligations but also the initiatives they are taking on voluntarily basis. I believe in coming future this magazine shall play an important role in raising awareness among different stakeholders about investments that E&P companies are making to stimulate the economic growth of the country.

### Mr. Tahir Rasul Janjua

Vice President, CSR Expert Committee

## From the Desk of Editor

Dear reader,

Here you go with a new magazine of CSR from PPEPCA, CSR Expert Committee. Based on the feedbacks on newsletter (we have been issuing up

to 2014), we have entirely revised the outlook and have also inserted a new section of case-study. With the revised outlook we have turned it to "annual magazine" with a completely new design. These modifications are meant to retain your attention to the Social Investments made of by E&P companies in Pakistan. I am sure that these contributions will further be strengthened with the support of extended stakeholders like you.

We are hopeful that your feedback will further steer us to advancement.

Have a nice year ahead.

# Stakeholder Engagement – A key to smooth business operations

OMV (Pakistan) Exploration GmbH/ OMEL is operator of Kuhan & Mehrar block which lies in Khuzdar, Jhal Magsi, Bolan, Kalat districts of Balochistan and Dadu, Kambar Shahdadt, districts of Sindh province respectively. Keeping in view the general law and order situation in the area, the decision to invest in Balochistan was very decisive for OMV. To roll-out ground operations in Balochistan security was one of the determining factors but it wasn't the sole driving determinant.

In a politically and geographically challenging place OMV believes in maintaining a close and balanced relationship with all stakeholders, including the federal, provincial and district authorities, parliamentarians, politicians, Sardars/tribal heads/area influential in a holistic manner. The balanced and transparent approach was of vital importance for the company to start its operations. A close relationship based on prompt response gave OMV an access to traditional and provincial forums.

Stakeholder engagement is a two way process. There are different levels and associated engagement methods depending on the nature and extent of stakeholder involvement. Starting from Chief

Minister Office to Home and Energy Departments and to District Management Authorities and Local influential; all stakeholders were engaged through an integrated focused approach. Grievance reporting mechanism for stakeholders was also in place so as to receive, record and respond to any grievance raised due to company's operations in the area.

As a result of this process, OMV's first seismic phase in the area is completed successfully. Through following this process not only the goodwill is created but the positive interaction during the whole engagement process ensured OMV's social license in the area to operate smoothly.

**For us Stakeholder Engagement is a 'must do' while being a socially responsible company. It has facilitated us in connecting with stakeholders who helped us in doing right things at right time, thus paving way for OMV to support smooth operations.**

**Kurt Wagner**

General Manager, OMV Pakistan

## A promising future

Abdul Latif's father runs a tea shop near United Energy Pakistan's (UEP) Kausar facility. As a young boy, he would often see UEP's vehicles pass by his father's tea stall. Abdul Latif says, "My father faced financial problems whilst we were growing. However, he never compromised on our education". In March 2015, this bright young boy from Matiari district was hired as a Field Production Trainee by UEP.

His association with the company began even earlier when he was selected for The Hunar Foundation's (THF) training programme. In 2013, UEP funded a one-year vocational training course in partnership with THF. THF is an NGO which provides quality vocational training of international standards. Selection for the course funded by UEP was very competitive and only boys from UEP's concession areas could apply for the programme. All applicants went through a rigorous examination and interview

process. Abdul Latif was one of the 10 top-scoring candidates who were inducted for the programme.

He received technical training at THF's picturesque campus located in Rashidabad and graduated with a diploma in Mechanical Engineering. Since this course was relevant to UEP's work, graduates underwent an additional round of tests and interviews and four boys, including Abdul Latif, were selected as Field Production Trainees for the company. Abdul Latif says, "My family has humble origins. After completing my intermediate education, I did not have the funds to study further and was worried about getting a job. The opportunities provided by the company have undoubtedly helped me realize my potential. I am not jobless today and am proud to work for UEP and support my family. I look forward to growing my career further with UEP and stand as an example of the company's commitment to its local communities".

In 1995, BHP Billiton joint venture was awarded the Dadu concession (Block 2667-1) located in Province of Sindh. Zamzama Gas Plant is located in Taluka Johi, DADU. The Zamzama Gas Field was discovered in 1998 and production started in 2001. Johi Taluka is the largest Taluka of district Dadu in Sindh province. It is situated in western side of Dadu District. Our goal is to engage with and support the communities where we operate. We are successful when our communities value their relationships with us.

BHP Petroleum (BHPP) is working mainly on 4 following thematic areas

- **Provision of Quality Education**
- **Developing Sustainable Health Care Facilities**
- **Developing Sustainable livelihood Opportunities**
- **Infrastructural Development**

Interventions in these areas aim towards sustainable development and have socially uplifted the economic conditions and have improved quality of life of locals.

## Provision of Quality Education

- BHP Petroleum has been supporting running cost of 10 primary and 2 secondary schools.
- Total enrolment in these schools more than 1,000 students including boys and girls. This project is directly giving employment opportunities to more than 50 locals including teachers and administrative staff.
- Our education program has greatly improved the quality of infrastructure, facilities and human resource of the local education system, focusing in particular on providing quality schooling for girls. On completion of studies, students have been able to achieve competitive edge over others. Education is one of the primary demands of the locals. BHP Billiton's education program is proudly owned by the local communities wherein they have donated free lands as well as take part in school management through appointed committees. Local teachers educate communities on social work done by the company.

## Developing Sustainable Health Care Facilities

- BHP Petroleum has been supporting running cost of 6 community health clinics (CHCs).
- These CHCs offer basic medical facilities to the local people and are managed by well-trained medical staff. These clinics are attended by more than 22,000 patients a year and serve a population of about 110 villages.

- Through health project we will be providing direct employment to more than 30 locals which include trained medical staff, social organizers and other administrative/support staff.
- Improving health situation in this area will lead to improvement in quality of life. Continued support to health projects is crucial for our business as it greatly enhances our reputation at the local level and demonstrates our honest commitment to develop local communities. The community values our efforts in the health sector which has brought decline in diseases and fatality rate.

## Developing Sustainable Livelihood Opportunities

- BHP Petroleum has been supporting running cost of 1 vocational training centre in lease area which is known as 'Sartiyoon Silai Karhai Centre'. To the date 534 students have been passed out of 13 batches. Through this project BHP gave direct employment to 6 locals.

## Infrastructural Development

- Till date BHP Petroleum has supported construction cost of 51 water filtration units for the provision of clean drinking water to local communities. These units are now self-sustained, as Water management committees (WMCs) and locals are maintaining these facilities. BHP is not providing any running / maintenance cost.

Our goal is to engage with and support the communities where we operate. We are successful when our communities value their relationships with us.

## Sustainability Aspect in Community Development

Sustainability aspect is the most important part of any community project and BHP Petroleum always aim to execute projects which are sustainable and accepted by local people. Under our education program in mid-2015 BHP Petroleum sustainably handed over 5 community schools to local government Dadu and merged 1 community health clinic into existing ones. Additionally, 1 vocational centre was also handed over to existing NGO for sustainable performance on self-support basis.

BHP is also working on the sustainability of remaining schools and clinics by exploring various options including handing over these projects to either government or to any reputable local regional NGO.

Budget Highlights:

BHP Petroleum has spent more than its PCA obligation on its community program during 2014-15. Status of Budget Spent is as below.

Year	Obligation (In USD)	Spent (in USD)
2014	166,667	486,048
2015 (till June, 2015)	150,000	204,298

# A Journey Towards Sustainable Development and Positive Social Change

eni Pakistan is improving the quality of life and economic welfare of local people residing in its operating blocks of Kirthar (Bhit & Badhra), Tajjal (Kadanwari), Sukhpur & Offshore concessions. As part of its Corporate Social Responsibility (CSR) and the terms of its agreements with the Government of Pakistan, eni Pakistan invest substantial amounts for socio-economic development of the communities living in its concession area.

## Major achievements of eni Pakistan July-December 2014

### Education

Water linings	04
Electric water coolers	02
Veterinary Hospital	01
Installation of Solar panels	

### Natural Resources Management

Veterinary Mobile Camps	19
Bio gas plant	04
Agricultural specialists visit	02
Tree Plantation (Schools & CHCs)	

As per the Sustainable Community Investment Plan (SCIP) 2014 eni Pakistan has kept on its commitment to invest in social infrastructure and Natural Resource Management and to provide quality services in health and education, in its area of operations.

During the period of July to Dec 2014, health was promoted by establishing free medical diagnostic camps for communities residing in various areas of Bhit, Badhra, Kadanwari and creek areas of offshore blocks. In District Shaheed Benazirabad two ambulance were provided to Rural Health Centre (RHC) Shahpur Jahania and RHC Bhandhi, ultrasound machine for RHC Daulatpur, Pain management equipment at Peoples medical hospital, electric water coolers for RHC Kazi Ahmed & Bhandhi and tricycle for special people in Taluka Daur, Kazi Ahmed and Sakrand.

To promote quality education schools under renowned organization, The Citizen Foundation (TCF) have been Partnered during this period. Moreover, Vocational & Computer Training Centre Jhangara has been shifted to newly constructed buildings. Also two Modern Libraries equipped with books on wide range of subject has also been established at UC Jhangara and Chundiko village to quench the thirst of knowledge of readers. For the provision of alternate energy eni Pakistan installed solar panels in 10 villages, 6 Schools, 1 CHC at UC Jhangara, Sehwan and 2 Trauma centre at THQ Sakrand and RHC Kazi Ahmed District Shaheed Benazirabad.

Drinking water is supplied to communities through water tankers at their door step; and

hand pumps are installed in various villages at Bhit & Badhra, Kadanwari and offshore blocks. In addition to that two agricultural specialists were made to visit the area to promote the awareness of natural resources management. In order to manage the natural resources Veterinary Camps for Vaccination and drenching was arranged at UC Jhangara, Taluka Sehwan, District Jamshoro and Taluka Nara, District Khairpur along with the construction of one veterinary hospital at Ehsanabad and trees were planted at Community schools and Community Health Centre (CHCs).

The initiatives taken by eni Pakistan are not only uplifting the standard of living of local people but are significantly translating into better relations between the company and local communities.

eni Pakistan invest substantial amounts for socio-economic development of the communities living in its concession.

# Community Development Initiatives in Jati Block, District Sajawal, Sindh

Kuwait Foreign Petroleum Exploration Company (KUFPEC) a wholly-owned subsidiary of Kuwait Petroleum Corporation (KPC), the National Oil Company of the State of Kuwait seeks to enhance the quality of life of communities where it has significant presence or interest. Being responsible corporate this is a strategic component of our business practice. It is our goal to be viewed and perceived among all stakeholders as a good neighbour, caring employer and a valued partner.

Citizenship, Performance and Integrity are KUFPEC's core values. KUFPEC is committed for continual improvement in ensuring health, education, safety and security of people, making a positive contribution to local communities and protecting the environment. Thus caring for its communities and contributing to improve their quality of life are KUFPEC's prime social responsibilities.

Jati Block was awarded to Kirthar Pakistan B.V. a subsidiary of KUFPEC for oil & gas exploration and production, which is located in District Sajawal, Sindh.

KUFPEC identified Community Development Project in Jati block through base line survey keeping in mind community needs in close coordination with local authorities.

These projects were the Construction of two class rooms at Government Higher Secondary School Jati City, renovation of Government Girls High School and Installation of fifty water hand pumps in villages in Jati, and procurement of ambulance for Jati Hospital

The community development projects were accomplished in specified time period.

KUFPEC is committed for continual improvement in ensuring health, education, safety and security of people, making a positive contribution to local communities and protecting the environment.

## CSR Achievements during July-December 2014

MOL Pakistan, member of MOL Group is in its Sixteenth year of presence in Pakistan & as a socially responsible, has always paid special emphasis to the welfare of the area where it operates. During the period, following projects were undertaken.

### Ground Breaking Ceremony of Check- Dam at Ahmadi Banda in District Karak.

Keeping in view scarcity of water in district Karak, MOL Pakistan started construction of Water Harvesting Structures to harness the rain water. Ten such structures have already been completed in Tal block.

Based on the success of the projects and as requested by the local community, a ground breaking ceremony of a Check-dam was organized on 14th November, 2014 at Ahmadi Banda which was participated by large number of local elders. Commissioner Kohat Syed Jamal-U-Din Shah was the Chief Guest on the occasion.

District Officer, Soil Conservation, Karak while explaining the objectives of the structure gave detailed presentation to the Chief Guest. Head Community

Development elaborated the Social Welfare Program of MOL Pakistan and reiterated his resolve to invest more on such projects in future. Commissioner Kohat unveiled the plaque and addressed the gathering.

He stressed on maintaining close interaction between the local community and the company and appreciated such projects in the area. Later on Commissioner Kohat along with Deputy Commissioner Karak inaugurated a plantation project by planting

an olive plant near Central Processing Facility at Makori in District Karak.

### T-20 Cricket Series for Physically Handicapped Persons- Islamabad.

In order to commemorate "world disabled day", MOL Pakistan sponsored a T-20 cricket series for Physically Handicapped Persons in Islamabad. The activity was organized by Pakistan Cricket Association for the Physically Handicapped (PCAPH). The tournament started on 27th November, 2014 and final played on 4th December, 2014. Eight Teams from all over the country participated in the tournament.

For the closing ceremony of the tournament, Managing Director / CEO MOL Pakistan Mr. Akos Grosz was the Chief Guest along with H.E. Mr. Istvan Szabo, the Ambassador of Hungary as Guest of Honor on the occasion. The ceremony was also participated by the ambassadors along with other diplomats and dignitaries from the city.

MOL has always paid special emphasis to the welfare of the area where it operates.

### + Free Eye Camp in Margalla North Block.

MOL Pakistan in collaboration with Al-Shifa Trust, Eye Hospital Rawalpindi organized a one-day Free Eye Camp on 29th November, 2014 at Sardhana Village in District Haripur. The camp received an overwhelming response from people of the area.

A medical team comprising of four (4) specialist doctors from Al-Shifa Trust were arranged to provide free check-ups and appropriate management. During the day long activity about 825 patients

including 343 women were examined and 280 children were screened. Besides examination, prescribed medicines and spectacle and glasses (509) were also provided to the patients. 15 patients were referred for advance investigation, and 27 patients were referred to Al-Shifa Trust, Eye Hospital Rawalpindi for operation among which 24 surgeries have already been carried out free of cost.

This was the 11th such camp in operational area of the company and the total patients served during these camps comes to about 5,500.

### Completed Projects

Besides, during the period of July-December the following projects were also completed.

■ Drinking Water Supply Scheme  
Bakha Banda- District Karak

■ Additional Work in FG Girls  
College Thanda Pani- Islamabad

■ Intermediate and technical  
Scholarship-2012-2014

■ District Cricket Tournament

OGDCL always supported for educational facilities for local community in its operational areas. Company provided science equipment, computer printer, labs, multimedia projector, Al-mirahs for Library, Generator, Furniture and electric water coolers to Govt. High school Jahanpur Taluka Ghotki with cost of Rs. 1.200 million.

## Education

**S**chool Bus hired for pick and drop facility for 21 villages of Pasakhi field at Tando Jam district Hyderabad with annual expenditure of Rs.1.14 million. OGDCL provided office furniture ceiling fan, generator to Govt. High school Ayub Lakhan in the area of District Ghotki with cost of Rs. 1 million. OGDCL constructed class rooms and provided furniture to Jarwar Bridge School near Uch gas field with cost of Rs.1.4 million. An amount of Rs.500,000/- approved for financial assistance for students of Lasbella University. Company under CSR program approved an amount of Rs.2.856 million for the repair of Govt Girls school and college district Kharan.

## Water Supply

Company installed 39 Hand Pumps with cost of Rs.0.497 million in the area of U/C Shahid Khan Gopang near Kunnar Field for provision of clean drinking water to local community of the area. A Scheme titled "Replacement of pipeline for water supply Killi Kalli, Dera Bugti with cost of Rs.2 million has been completed. Water resistivity survey is completed in the area of Loti and Pirkoh fields..

## Health

One Day Free Medical Special Camp was conducted at Social Welfare Dispensary Qadirpur for local community to provide health awareness regarding Diabetic and Hepatitis B&C. Consultant doctors / physicians from Health Deptt. Ghotki gave medical lectures on Diabetic and Hepatitis B&C and more than 400 patients were treated. Construction of Blood Bank in DHQ Hospital Barkhan with cost of Rs.4.866 million is under process. X-ray machine approved/donated to Basic Health Unit Halepota district Hyderabad with the cost of Rs.0.498 million.

## Donations.

OGDCL also giving priority to promote healthy sports activities. Recently company has sponsored Sibi Spring sports festival with Rs.0.3 million. An amount of Rs.2.45 million also donated to Quetta Golf Club for Golf Championship at Quetta.

Rs.0.3/- million approved for Sodi world serious championship at lake view Islamabad and an amount of Rs.2 million also approved for donation to Zaanth social development society Pakistan, Quetta for distribution of library books. Company

OGDCL always supported for educational facilities for local community in its operational areas.

approved Rs.5 million for Frontier Corps Quetta Baluchistan for organizing T20 Ramzan-ul-Mubarak Cricket Tournament to promote healthy environment and support fervor among the young generation of affected and the unlawful areas. Recently, OGDCL supported Al-Shifa Trust Eye Hospital Rawalpindi with an amount of Rs.0.5 million for outreach program in the area of KPK and southern Punjab and handed over a cheque to the Shifa management in a simple but graceful ceremony.

## Women Empowerment

Company distributed sewing machines for the poor deserving women of Toba Tek Singh to earn their livelihood and approved distribution of 50 sewing machines for needy & poor women of Toba Nokhani Zin Dera Bugti.

## Flood Relief Activities during Year-2015

OGDCL has provided flood relief support in Ghotki and Khairpur districts for providing medicines and distribution of food hampers to flood affectees with expenditure of Rs.2.062 million during flood-2015. Flood relief activities were also carried out in the Area of Kot Adu, Muzaffargarh district and Garh Maharaja, District Jhang during 2015 to provide medicines, food hampers and portable water to flood effectees with an amount of Rs.1.650 million.

# PGNiG, Polish Oil & Gas Co, CSR Highlights in Kirthar Block

PGNiG Polish Oil & Gas Co (POGC) is working in Kirthar area in District Dadu, company is striving hard in the area to manage CSR activities as a social obligation. Basically area comprises on different Tribes & small villages, Community is deprived of basics health facilities and drinking water. During the years PGNiG has planned and established BHU at Tando Rahim Khan and handed over to the local administration for the management, total project cost was approximate PKR 7.5 Million.

In the first quarter of year 2015 PGNiG has managed Free Eye Camp from which many of the locals and surrounding villages got the benefit. Almost 750 patients were treated in three days camp, 150 major patients were operated and 100 OP patients were treated and free medicines & spectacles were also given.

As drinking water is the major issue in the area so against social welfare program we planned, drilled and installed 20 hand pumps in different villages, which was the great move from the PGNiG and supported by the committee and community appreciated at all the forums because water is basic necessity, total project cost was PKR 3.5 million. We are also planning and propose two tube wells in the area against social welfare scheme and are under consideration with the committee for approval

Premier Oil Pakistan, being a socially responsible organization, has been an active player in the development of local communities. With its focus on environment, economics and social endeavours, it has been working towards the development of individuals, in particular, and over-looked communities, in general.

## Lead On Social Action Project

In 2014, collaboration was established with a local NGO, School of Leadership Foundation (SoLF) to develop the “Human Capital” of under privileged local communities nearby Islamabad. 10 communities, were shortlisted for the project. They were:

Barakahu	Banigala	FatehJang
Taxila	Hassanabdal	Rawat
Mandra	Talhaar	Pulgraan
Hattar		

1-Day youth conferences, with minimum 100 participants each in the shortlisted communities, focusing on self-awareness, attitude development and capacity building, were held. The participants were of age between 14-18 years. The objectives of these conferences were:

- to take youth through self-awareness program to help them recognize their capacity as human beings.
- to change the attitude of our future leaders from “I can’t” to “I CAN”, develop leadership skills in participants.
- to build capacity of individuals, enabling them to deal with challenges in their life, both at personal and professional level.

100 activists from these 10 communities were further shortlisted and trained in 3-day workshops. The objective of the workshops were:

- to make participants realize the power of a single soul on mission.
- to train participants on project management. The participants went through a journey from problem-idea-plan-developing and resources-execution-learning-multiplication of the idea.
- to equip participants with skills required to manage a project. This included leadership, communication and negotiation skills.
- to introduce the concept of conflict resolution, inter cultural dialogue and active citizenship.

After the end of these workshops, participants, individually or as teams, launched self-sustaining “Social Action Projects” based on problems they see in their local communities. The projects chosen by teenagers, related to:

- Sanitation – waste disposal systems, awareness campaigns
- Roads Cleanliness – awareness, collaboration with CDA for model streets creation

- Computer Labs – through donations, voluntary computer trainings
- Road Repairs – funds generation within community, requesting local MNAs
- Children Education – free education for deprived children, funds generation for books/uniforms, negotiation with schools for class spaces
- Library – funds generation, donations, library space allocation in schools
- Air Pollution – awareness, convincing motorists to repair, trees plantation
- Cleanliness – fundraising for dustbins, awareness, clean-sweep drives
- Entrepreneurship Seminars – hosting in local schools
- Child Labour – sensitization of communities to discourage
- Green Pakistan – partnership with CDA for tress plantation

All the social action projects were evaluated and awarded for the efforts put in their initiation. A ceremony was held in February 2015. Dignitaries from each community were invited to acknowledge the efforts done by the youth.

Mentoring of the projects continued.

# CSR Initiatives For Provision Of Health Care Facilities.

Pakistan Petroleum Limited (PPL) attaches great significance to its host communities for which it takes various initiatives in the field of health, education, skill development, infrastructure development and water supply schemes. Detail of few projects carried out for provision of health care and quality education being shared through this article.

Pakistan Petroleum Limited (PPL) attaches great significance to its host communities for which it takes various initiatives in the field of health, education, skill development, infrastructure development and water supply schemes. Detail of few projects carried out for provision of health care and quality education being shared through this article.

Operating Mobile Medical Dispensaries at Mazrani, Kandhkot and Sui is a regular feature that provides health care to poor population of these areas. During the period July 2014 to June 2015, over 40,000 poor patients were provided free of cost consultancy, treatment and medicine.

PPL Supported Marie Adelaide Leprosy Centre's (MALC) Triple Merger Centre (TMC) of Turbat, Panjgur and Kandhkot wherein approximately 4,000 patients were provided treatment of patients suffering from Blindness, Tuberculosis and Leprosy.

Approximately 2,000 flood affected victims were provided treatment for various diseases that includes skin diseases, RTI, Flu, Fever and Viral Infections at Kashmore

in the month of September 2014. People considered this facility a blessing for them. Eye camps are among one of the ongoing projects annually organized with an aim to provide relief to patients living in the close vicinities of PPL's Sui, Kandhkot, Mazrani, Shadadpur and Adhi Fields suffering from ophthalmological diseases.

During November 2014 to February 2015, Eye camps were organized at District Headquarters Hospital Dera Bugti, Taluka Headquarters Hospital Kambar @ Shahdadkot, District Headquarters Hospital Kandhkot, Shahdadpur Institute of Medical

Sciences and three locations near Adhi Field i.e. Basic Health Unit Dhong, Rural Health Centre, Daultala and Govt. Elementary School Langah. At each camp, more than 1,500 patients were provided free of cost consultation, treatment and medicine at OPD. Whereas, spectacles for near and distance vision provided to over 750 patients and surgeries of more than 150 patients carried at each camp for cataract removal and other ophthalmological diseases.

50 bedded PPL Public Welfare Hospital, is a mega project established for the poor population of Sui Town providing health care facilities without any charges. At this hospital Mother & Child Health Care, Emergency and OPD is operational wherein more than 250 patients are provided health care facility on daily basis.

PPL constructed building for a Government dispensary at Village Chutto Khan Bagan UC Darya Khan Mari District Noshero Feroz. Provided fully equipped ambulance to Govt. Dispensary Buddha Pur Village District Jamshoro.

All the projects mentioned above contributing to provide health care i.e. one of the basic requirements of human being for their survival.

UEP has funded a diverse portfolio of social investment projects for the benefit of communities residing in its concession areas. Projects selected and funded by UEP come under three broad themes, one of which is building the capacity of local youth to promote sustainable income generation. While many projects under this theme have been supported by UEP the jewel in our crown is the Operator Training programme.

## Developing Local Talent

**T**he Operator Training Programme aims to transfer technical skills to the youth of our concession communities. Only young people from UEP's concession areas can be recruited for the two-year training schedule. At the commencement of the programme advertisements are placed in local newspapers to select on merit from a wide pool of candidates. All applicants for the programme undergo a thorough exam and interview process. Only top-scoring candidates are selected.

So far, about 420 operators have been trained at different levels. Recruits are paid a salary from the first day of training. Professor Rafiq Kazi, from Mehran University, has been hired by UEP to teach the Trainee Operators. Boys are taught at a classroom built within UEP premises. Practical training is also conducted at UEP facilities.

The total cost per batch of operators is US \$ 385,000. This money is part of UEP's discretionary spend i.e. money spent on social investment projects in excess of

the amounts stipulated by the Petroleum Concessions Agreement (PCA). Since this programme is run with the spirit of transferring skills to the local community, trained operators are not obliged to work for UEP; some operators have moved on to work for other companies both at home and abroad. However, most operators do choose to work for UEP. There are ample opportunities for career advancement; several recruits of the Operator Training programme have gone on to become senior operations team leaders heading our production zones.

Through this intervention UEP aims to transform the lives of its local youth and enable them to contribute to the country's progress. Other projects the company has funded to build local capacity include a one year technical training programme in partnership with the Hunar Foundation, training for Traditional Birth Attendants (TBAs) in consultation with local NGOs and reviving the indigenous art of 'Farasi' rug making in association with the UNDP Small Grants Programme.

♦♦ UEP has funded a diverse portfolio of social investment projects for the benefit of communities residing in its concession areas. ♦♦

At OMV we take our responsibility towards the community seriously and go beyond our way to ensure that communities we are working with, gain social and economic benefit through our operations as well as through our social investment initiatives.

## OMV-A Business Creating Social Profit

Our social investment program mainly encompasses following four areas of intervention:

### Education – Builds a Brighter and Stronger Future

From over a decade, OMV Pakistan under its 'Rising through Education (RTE)' program is engaged in infrastructure development, teacher training and facilitation of other educational and extra-curricular activities in various Government Primary schools in its operational areas. RTE not only caters for promotion of primary education but also extends support to secondary- higher secondary education, technical-vocational training and adult literacy programs as well.

OMV believes that by providing access to quality education we can help in bringing progress and prosperity to the region and in turn help deal with issues of poverty.

### Making Dreams Come True - Empowering Women

For OMV, gender equality is a cross cutting theme in all its program interventions. OMV's recently initiated 'Women Empowerment' project is supporting females in acquiring formal education from primary level up to professional degree access to financial and capital resources with support of different implementing partners. i.e The Citizens Foundation, Kashf Foundation and Tahzeeb Development Foundation.

OMV also supported Kashf to setup of two micro-finance program branches in its operational area, with the aim to provide women access to financial and capital resources. In addition to supporting women empowerment in the local areas of OMV, we strongly believe in gender equality in all our operational activities. That is why OMV is also inducting female trainees at field level.

program interventions, which OMV has taken on to support with the belief that awareness, prevention and treatment, if combined provide better life quality for any individual. Since its inception, OMV's CSR program has been providing various kinds of assistance to health sector ranging from provision of basic infrastructure support to run awareness and vaccination campaigns across its operational areas.

Additionally, company has also been supporting 'Miano Community Health Program' with the aim to provide safe motherhood as well as general and reproductive health services to the community of Miano and Salehpat.

OMV with the support of respective District Administrations has also established 'Nara Medical Centre, Chundiko' with an aim to provide 24 hrs emergency services to the people living in and around Nara's vicinity. PPHI is running NMC.

### Healthy People– Healthier Communities

Next to education, health is also one of the

### Water–A connection to Life

Due to water scarcity in OMV's Miano operational area, the communities struggle to acquire water for both drinking and agricultural purposes. To help communities overcome this challenge, OMV has designed a project to tackle both natural and social obstacles contributing toward water scarcity. Since inception of its CSR program, OMV has been providing Miano community with 36,000 liters of potable water on daily basis. Quite recently, OMV has also started working on 'Alternate water solutions' for the local community residing in Miano area. Under this initiative company has successfully completed pilot projects of 'Rain Water Harvesting' and installation of 'Reverse Osmosis Unit'.

The Company has a proud history of corporate giving and supporting community projects. We have implemented a visionary Community Development Program that focuses on education, health services, water supply schemes and infrastructural developments.

## Education

We believe that education is the bedrock of progress. Our development program focuses on education at all level. In 2015, POL has spent Rs. 1.2 million to improve the infrastructure of 1 government school that caters to about 500 students. POL has also invested over Rs.2 million on furniture for students and teachers of 5 government schools and provides computers and science laboratory apparatuses to enhance student technical skills.

POL is already operating a modal high school and Degree college at Khaur Field. College has a library and laboratories of Physics, Chemistry, Biology, Computers and technical education. It is a signal project of the company and is perennial benefit to the community. Khaur Degree College is a leading provider of post graduate education in the area.

## Infrastructure Development

Infrastructure development is one of the main areas of focus amongst POL social welfare initiatives. Whether it is construction of dispensary, schools, roads, concrete streets, drainage systems, water supplies or provision of electricity. POL takes the lead in providing basic amenities of life to the communities where the company operates.

To facilitate the locals, POL has executed over 9 projects at the cost of Rs. 7.3 million to provide better accessibility and transportation in 2015. These include improved cause ways, drainage systems, concerted streets, link roads and water supply to make commuting easier.

## Health

A state of the art hospital at Khaur is delivering round the clock free emergency assistance and quality health services.

The hospital is equipped with a modern operation theatre, X-ray machines, latest medical facilities and advanced laboratory equipment and is the only hospital providing such facilities to the general public of the surrounding areas.

## Environment

The 12th Annual Environment Excellence awards ceremony, organized by National Forum of Environment & Health was held at Sheraton, Karachi on August 9th, 2015.

POL was one of the top five companies which received the environment excellent award. POL won the award for the 7th consecutive year.

## Disaster Relief

POL paramedical staffs arranged the medical camp for refugees of Swat and bonier at Swabi NWFP and distribute free medicines.

## Other Contributions:

To create a competitive and healthy community, POL has restored sports grounds and regularly presides at various occasions.

## Vocational Training Centre Khaur

- POL has established a vocational training centre for women in May 25, 2006.
- The aim of establishing a vocational centre is the development of attitudes, knowledge, and skills for entrepreneurship and self-employment among women of the local community.
- Up till now, more than 1000 women & girls have been trained over the period.

Infrastructure development is one of the main areas of focus amongst POL social welfare initiatives. Whether it is construction of dispensary, schools, roads, concrete streets drainage systems, water supplies or provision of electricity.

Our CSR strategy is an integral part of Company's culture and reflects continuing commitment of our business to contribute towards the well-being & quality of life of our workforce, local community and society at large. In order to ensure the element of continuity and sustainability in our social welfare programs, MPCL continuously invests in the interventions related to education, health, water supply schemes, philanthropic donations and communication infrastructure.

## Mari Petroleum Company Limited – A Socially Conscious Company

### JV BLOCKS–Mandatory Obligations

#### ■ Completed Projects

Ten projects worth PKR 12.9 M have been completed in 2014/15.

#### ■ Planned/Ongoing Projects

Twenty projects worth PKR 64.2M have

been planned during 2015/16. The work on most of the projects has already commenced. Out of the total planned amount, 26 million have been earmarked for education, 22.7 million for health and 15.3 million for clean water related initiatives.

#### ■ Establishment of Medical Camps

Regular medical camps are established at our fields at Halini & Zarghun due to non-availability of medical facilities in these

areas. At each location, 60-70 patients (approx) are treated on daily basis. These medical camps have been highly appreciated by the local communities.

#### ■ MGPO as Implementing Partners in Punjab

MPCL signed an MOU with Mountain & Glacier Protection Organization (MGPO) on 23rd January 2015, to implement its CSR interventions at Ghauri Block (Jhelum – 60%; Rawalpindi – 40%). Work on one of the projects i.e. Reconstruction of BHU Karunta worth PKR 7.8M has already started on 2nd March 2015. Whereas, another project, worth Rs. 13 M, to support and facilitate girls' education at GGHS Pail Mirza is expected to start in September 2015.

#### ■ Special Training Sessions in the Field

In June 2015, MPCL, Head Start School Islamabad and MGPO jointly conducted a week long training program (on English language & computer literacy) for the students of Govt Girls High School (GGHS) Pail Mirza, Jhelum. Special efforts are

made for familiarization of students with exploration and production activities in the field through conducted tours, especially in Balochistan.

### ■ PPAF as Implementing Partners in Balochistan

To improve service delivery of our CSR interventions, PPAF has been engaged as our implementing partners in Balochistan. MPCL-PPAF teams are in the process to initiate a pilot intervention before scaling up this collaboration in all JV blocks of Balochistan.

## Mari Field Daharki

Eight projects worth PKR 8.1M have been completed at Mari Field, Daharki. In addition, an annual budget of PKR 42.5M was earmarked to sustain following CSR activities at Mari Field on continued basis;

- 3X Mobile Dispensaries
- Maternity Home (Dad Leghari)
- Dispensary at Well No 8
- TB Clinic (Well No 8)
- PCR Test of Hepatitis – B & C positive cases
- Mari Education & Medical Complex (MEMC)
- Financial assistance to local district administration for anti-polio campaign
- Mari Special Education School
- Operational expenditures of schools (at Well No 8, Lohi Pull & Khirohi)

PKR 78,814,000 has been earmarked for social welfare schemes (including

sustainability of already running CSR projects) for FY 2015-16.

### ■ Outsourcing of Health Facility at MEMC, Daharki

In order to deliver optimum education & healthcare to the local community MPCL had completed state of the art CSR project named Mari Education and Medical Complex (MEMC) at Daharki worth Rs. 180 M in 2013. Health facility of MEMC has been outsourced to Pakistan Red Crescent Society (PRCS) in 2014, where about 140 patients are treated (free of cost) on daily basis. An amount of Rs. 23.6 M has been earmarked for its smooth functioning in FY 2015-16.

### ■ Outsourcing of Education Facility at MEMC, Daharki

For quality education and better management of the said facility, MPCL has outsourced education facility of Mari Education & Medical Complex (MEMC) to The Citizens Foundation (TCF), initially for a period of 10 years. An amount of Rs. 6.1 M

has been earmarked for the facility in FY 2015-16.

### ■ MPCL-AKU

Collaboration in Health Sector at Mari Field, Daharki: To improve health delivery system at Mari Field Daharki, MPCL has collaborated with Agha Khan University (AKU) to develop a quality assurance program in healthcare management system, continuous professional development of healthcare providers/clientele and to conduct Hepatitis C pilot project in the area.

## Over & Above CSR Obligations - Other than JV Blocks/Mari Field

MPCL has undertaken various projects/ made donations worth PKR 55.7 M, during 2014/15, over and above our mandatory CSR obligations.

## Implementation of iso 26000 Guidelines on Social Responsibility

In order to evaluate sustainability strategy & implementation performance of MPCL against ISO 26000 framework, SGS - the world's leading inspection, verification, testing and certification company - has performed gap analysis of MPCL systems in the month of June 2015. MPCL is the first E & P company in Pakistan that has conducted gap analysis of its existing systems against ISO 26000 guidelines on Social Responsibility (SR).
