# CSR MAGAZINE

Social Investment by E&P Companies in Pakistan

2016

CSR Magazine is a Publication of PPEPCA

# Message from President

It is my pleasure to present 2016 CSR Magazine highlighting some of the salient features of Social Welfare Projects and Community Development Work undertaken by Member Companies operating in all four Provinces of Pakistan. This sector of industry aims to make a difference in the lives

of local people and has always given top priority to the development of communities and Social Welfare in and around the areas of operation.

In spite of very depressed oil & gas market prices worldwide, the E&P Companies have kept their commitment with the community and undertook projects in collaboration with the relevant local stakeholders which include members of the community, local government officers, district administration staff and Elected Members of the National & Provincial Assemblies under the guidelines of DGPC. These projects are in the areas of Health, Education, infrastructure and Sports to undertake poverty alleviation efforts and improving quality of life in these generally depressed areas.

This enlarged 2016 CSR Magazine proudly presents success

stories and case studies of Member Companies during the year 2016. It may be noted that the communities living in proximity of the oil and gas fields and near the area of active exploration have been mostly benefited by the Social Welfare activities, especially in the remote areas of the country.

We have timed its publication to coordinate with the Annual Technical Conference (2016), organized by the Pakistan Chapters of PAPG-SPE, in order to give a wide distribution and a greater impact.

I would like to compliment contributions of Member Companies who voluntarily accepted their role and fulfilled their Corporate Social Responsibility to Pakistani Nation.

I would also like to acknowledge efforts made by the PPEPCA Editorial Board of CSR Magazine, the company staff devoting their time in community work and contributing case studies, articles and photographs to make a "Free CSR Magazine", a shining star of the Oil & Gas Industry.

**Wasim A. Zuberi**  
**President CSR Expert Committee**

## From the Desk of Editor

Dear reader,

It is always an honor to bring a development perspective of corporate sector in Pakistan. The projects, efforts and especially the outcomes of means mentioned here, are reflection of what a perspective is evolved by corporate sector (either fulfilling certain obligations & commitments OR voluntarily supporting the development needs). These are certainly drops in ocean. Expanding partnership with rest of the stakeholders, especially with public sector, would take these efforts to long term sustainable development in substantial area of country.

Warm welcome and thanks to those, who shared their thoughts, ideas, comments and most importantly analytical feedback.

We will continue this efforts and will keep on improving this magazine. Special thanks to Mr. Wasim Zuberi and Mr. Mazhar Farooq for their valuable contributions to get this magazine published timely.

Please keep on posting feedbacks.

Have a nice year ahead.

## Innocent Struggle

Had there been no CSR initiative, such exemplary feats would remain a desire, a dream which could never come true.

“I wish to spend most of my time in school (TCF Salehpat) even after the classes as this is the only place where I could sit under a roof...” ajolting desire of an innocent girl hailed from a vagrant background. A Grade V girl named Madiha, studying in OMV Sponsored TCF Salehpat, who is struggling to improve the quality of her life through gaining education. Her maternal grandmother who is a beggar by compulsion dreams to see her granddaughter as a School Teacher one day.

By virtue of OMV- TCF led CSR initiative, free education is being provided to Madiha, who is amongst the most under privileged faction in Pakistan. Amazingly, besides Madiha’s social and financial impediments, her hard work, her steadfast approach, and the desire to bring paradigm shift in her family’s identity is making her progress smoothly. She is adamant to continue formal education despite numerous challenges due to her imposed identity of being a part of The Beggar Family.

“Normally, I take a cup of tea in breakfast and two biscuits as a substitute of lunch in school recess period. My father left us years ago and now I am being looked after by my mother and maternal grandmother”, she narrated about her hardships with tears in her eyes. Besides all social handicaps, she has an inborn quality to remain cheerful and friendly; however, at times she undergoes strong deprivation due to obvious reasons. Hats off to the

school staff, it is due to their extreme dedication and commitment to a cause that she eagerly waits for the next morning to go to school.

There are a number of challenges which are yet to be unearthed in the journey of her innocent struggle, for which continual moral and socio-economical support by the society is needed. Had there been no CSR initiative, such exemplary feats would remain a desire, a dream which could never come true. Madiha is not only a girl; rather she is a symbol of untiring struggle and passion to transform her identity from grime to gold. Thanks to OMV on providing opportunities to progress, without discrimination.

“I wish to spend most of my time in school (TCF Salehpat) even after the classes as this is the only place where I could sit under a roof.”

Madiha

## Corporate Social Responsibility

OGDCL being a national E&P company seeks to accomplish its social obligations to maintain a balance between overall objectives of achieving corporate excellence and to fulfill aspiration of the community. OGDCL continues to fulfill social obligation under PCA agreements and indigenous CSR activities by way of investment in the areas of education, health, water supply, infrastructure development, sports and providing generous donations in case of natural calamities.

### Education

The Company has strong belief that training and education is essential to professional development and that education is a building block for change. OGDCL continues to support education initiatives to uplift the education level amount the local community residing around its operational area. During the year 2015-16, the company has undertaken following initiatives in educational sector.

### OGDCL National Talent Hunt Program

In collaboration with IBA Karachi and Sukkur IBA, OGDCL initiated OGDCL National talent program for the talented students from under privileged areas belonging to OGDCL concessional areas. The agreement was signed in a ceremony held on 19 April, 2016 at OGDCL's Head Office. Federal Minister for P&NR, Mr.

Shahid Khaqan Abbasi presided over the event. To start with, 300 students from IBA Sukkur and 100 students from IBA Karachi students selected from backward areas especially of oil/gas producing districts. The Company will contribute more than Rs. 200 million in a period of 5 years.

In continuation on 25 September, 2016 an inauguration ceremony of OGDCL-National Talent Hunt Program 2016 program was hosted by Sukkur IBA in which Leader of Opposition, National Assembly of Pakistan, Honorable by Syed Khurshid Ahmed Shah graced the occasion as Chief Guest and Mr. Zahid Mir, Managing Director OGDCL presided the ceremony as Guest of Honor. The Ceremony started with recitation from the Holy Quran.

Dean and Director Sukkur IBA, Prof. Nisar Ahmed Siddiqui appreciated the CSR efforts of OGDCL in helping underprivileged people in changing their lives. Mr. Zahid Mir, MD-OGDCL while addressing to the audience, expressed his commitment toward community services and youth empowerment for a bright future of Pakistan. He said that it is essential for industry to build strong relationship with academia for a mutual benefit where university play its role as source of new knowledge in shape

of research and industry as consumer of knowledge to convert it into commercial solution. He ensured that OGDCL will continue supporting Sukkur IBA through NTHP and other programs. Mr. Abdul Rauf Khajjak, GM-CSR, Mr. Irteza Qureshi-CFO, Mr. Asad Malik-Director HR, Mr. Ahmed Hayat Lak - Company Secretary, were also present at the ceremony.

Selection criterion of this program is based partially on academic merit and poverty. After completion of this six-month foundation semester, the 100 selected students will be offered admission in regular programs free of cost for the period of four years. These students will also be given free books, hostel accommodation and monthly stipend of Rs. 5000/ each for span of 4-year.

### OGDCL Internship Program

The Company also launched Internship program during March 2016 for 300 students and giving them Rs.25,000/- on monthly basis each and Rs.5,000 for meal expense.

### Scholarships Granted to Technical Training College Daharki

The Company providing free scholarships to the local students studying under three year diploma in Technical Training College (TTC) Daharki, District Ghotki. A small ceremony was arranged at Qadirpur Gas field on 6 June 2016 and handed over the cheque of Rs.7.5 million to TTC Daharki Management.

### Scholarships provided to Deaf Reach School

OGDCL under its PCA obligation supported the Family Education Service Foundation (FESF), Karachi with an amount of Rs. 3.00 million for Grant of Scholarships to the students of the Deaf Reach School Sukkur. The step was initiated to promote the education for the deprived but special segment of our society.

The Company under its CSR Program Upgraded Computer Lab , sports courts and provided Furniture , Apparatus & Chemical for Physics, Chemistry and Bio Lab, sports item, security system and fire extinguisher to

Government College Murree. Under CSR program OGDCL provided furniture, Books, financial assistance to 83 deserving students and repair Teacher Hostel and constructed 02 class rooms for FC schools at Loti and Pirkoh , District Dera . In addition to this the Company also provided school uniforms Bata shoes socks school bags to Government. Boys Primary /High school near Sinjhor field. District Education authorities, school management and OGDCL Team was also present at the occasion.

The company completed the Construction work of Govt. Primary school Sardar Shah Wali Spina, district Zhob with cost of Rs.4.48 Million.

### Healthcare

OGDCL continued its commitment of providing free medical facilities to local communities by way of services of doctors, provision of medicines and ambulance services around it oil/gas producing districts

The Company provided free medicines to THQ Hospital Kahuta on 26-07-2016 amounting to Rs. 460,000 for the welfare of poor and needy people of the area. Medicine will be prescribed for the welfare of deserving patient of respective area.

### Skin Disease camps

Skin camp was held at Sinjhor field social welfare Dispensary on 4-02-2016. Four skin specialist doctor's jointly checked/advised/ treated 600 skin disease patients such as scabies and psoriasis diseases.

The free skin camp was inaugurated by the respected DHO Sanghar

### Supply of Clean Drinking Water

OGDCL is playing a an active role to provide clean drinking water for the communities residing around its business areas.

The Company funded rehabilitation of water supply schemes amounting to Rs.11.70 million at Johri/Pitokh, Habib Rahi, Peshi, Landi, Dinani, Khurdan and Marrow at district Balochistan.

To overcome shortage of e clean drinking water , the Company installed tube well along with solar system in the area of District Kohat .

The company continues the supply of drinking water to residents of remote locations like Loti, Pirkoh, Hundi /Sari, Rajian, Chanda and Nashpa.

### Food Hampers / Dry Ration distribution

In order to provide relief to local community of Kacha area district Ghotki 450 dry Rations Bags costing Rs.1.080 million were distributed among the deserving people of the area. Inspector General Police Sindh, SSP Ghotki , RC Sukkur / FM Maru Reti Field OGDCL and people at large scale were present in the ceremony and appreciated the OGDCL contribution and initiatives.

## Welfare activities for the locals of Maru/Reti

A ceremony was held on May 25, 2016 in the area of Maru/Reti field, District Ghotki to distribute sewing machines, Water Hand Pumps, school bags and shoes among the deserving people of the area. Mr. Masood Ahmed Baloch, SSP Police, Ghotki was the chief Guest. Field Manager (Maru/Reti), Regional Coordinator Sukkur OGDCL, and large scale of local community also attended the program and appreciated the support and help provided by OGDCL.

Considering the importance of water for human life, on the recommendation of local

population, 22 No. water hand pumps of Rs.130,000/- were distributed to the local community for providing drinking water and house use under CSR program.

SSP Ghotki RC Sukkur, FM Maru Reti and other notable were present in the program.

23 Sewing Machines amounting to Rs.163,000/-were distributed amongst the local poor women under CSR program to make them able to earn their livelihood

## Sports

Sponsorship of 1<sup>st</sup> OGDCL Ramzan-ul-Mubarak Floodlights Hockey Tournament.

The Company provided funds of Rs. 10 Million (ten million) on June 2016 to Pakistan Hockey Federation for holding a National Level Floodlights Hockey

Tournament was organized in the second week of Ramzan-ul-Mubarak at National Hockey Stadium, Lahore.

## A light In the Darkness- Anwar Ali Success Story

Kadanwari area of Taluka Nara, District Khairpur Mirs' is ranked one of the most under developed arid zones in Pakistan, with meagre socio-economic and basic facilities. Communities of Kadanwari had to survive below the poverty line and due to lack of basic facilities of health and education which had brought the people on brink.

eni Pakistan as a socially responsible company; without having any Social Welfare obligation in Kadanwari stated spending enormous

amount annually for the betterment of communities in education & literacy, health services and for the provision of potable water.

Realizing the need of education for the children who could not go afar due to paucity of resources; eni constructed schools to spread the light of education so that others can see their way out of the dark.

“There are two ways of spreading light: to be the candle or the mirror that reflects it”  
- Edith Wharton

At present, eni is running 11 Community Primary Schools

and 01 Secondary school with enrolment of 890 students (306 - Girls & 590 Boys). Anwar Ali, one of the Seventh standard student in Eni's Community School at Kadanwari is quiet determined and passionate. Anwar Said, “Becoming an army officer is dream of my life”. Irshad Aradin, head teacher of Community Based Middle School Ihsanabad shared, “Anwar is one of the brilliant students who clears his examinations with flying colors and has keen interest in English, Pakistan studies & Mathematics.

This passionate child has never missed his class; even though he has to walk around 7km from his village to school but this struggle has kept his dream still alive.

Besides his excellence in academic, Anwar also actively participates in debates and sport activities. Recently this bright student emerged as a shining star; he got first position on 14th August debate competition, organized by Assistant Commissioner Nara. This wasn't the end of his achievements; he secured second position during another event of Independence Day organized by District Government, Khairpur Mirs'.

Misri Khan Bhambro; the father of Anwar said, “The success of Anwar is worth appreciating and all credit goes to eni Pakistan, for educating our children”.

Moreover, his success is also the source of inspiration for his schoolmates, who actively started to take participating not only in education but in debate, sports activities and other co-curricular activities.

# Rising with Equality (Women Empowerment)

Education plays a crucial role in the development of any economy. International statistics display that educated populations are positively correlated with high economic growth rates, enhanced labour productivity, social prosperity and sustainable development.

In corresponding to these facts, OMV-Pakistan launched a Women Empowerment Program in the mid of year 2014. This program aims at providing scholarship assistance at secondary and university level to the deserving and talented female candidates belonging to rural settings of these districts who are unable to afford their secondary and university level education. Tahzeeb Development Foundation (TDF) partnered for this initiative.

Under this intervention, efforts were meticulously aligned by OMV and TDF to award 08 scholarships at secondary level for girls residing at the distant Miano Desert Area of Taluka Salehpat District Sukkur, and simultaneously 05 scholarship awards were announced for Engineering University level students at Sukkur and Khairpur districts.

After adopting a systematic process of community mobilization it was made possible for the 08 Girls from Miano Desert area to attend the classes under secondary scholarship program. They are presently studying in Class 7 after successfully completing class 6 at Pakistan Rangers' Public School Chundiko, Nara.

These 08 Girls are the tangible signs of hope and a real case study, when it comes to their background, a distant area of Miano desert wherefrom they travel to school in Chundiko Nara covering more than 150 KM every day, for six days a week.

In addition to Secondary Scholarship Program, OMV and Tahzeeb are implementing a University Scholarship Program as well, which is one of the most innovative and creative venture for female empowerment.

The program started with its rigorous process of assessment and selection of candidates wherein 05 talented and enthusiastic young girls, who were unable to

afford their educational expenses and, were also willing to reside within the university campus, were selected by the selection committee constituted for this purpose. The committee comprised of various dignitaries from MUET-University, TDF, OMV and the top management officials at district level of Sindh Govt.

Presently, all the 05 Girls are studying in Mehran University of Engineering and Technology at Jamshoro and its campus in Khairpur Town for Software, Industrial and Electrical Technologies.

All the five girls are the most regular and disciplined students of the campus and have attempted three semesters where they have proved their potential to be intelligent young female engineers of Pakistan.

The scholarship assistance for all the

students in both the programs includes both the academic and non-academic aspects so that these brilliant students must not be constrained in any way and their enthusiasm of pursuing quality education must take their journey forward and help them in translating their dreams into reality.

“We, at Tahzeeb are proud to be the part of this program and in facilitating all the students in such harsh conditions where the community taboos and pressure on their poor parents by the community is very high. The social barriers disapproving of females studying with males has also been a concern for the community; but on the contrary parents of all these girls are not only confident of their daughters but are also anxious to see their girls flourish and succeed to become contributors in the very economic development of Pakistan.”, expressed by directress TDF, Ms. Shabana Mansoor.

Asma Bano (a role model for rest of females in area), presenting material to Shareefan who is eager to take on this struggle of Women Empowerment furthermore.

# “Access to education for all- Students’ - Enrolment Campaign 2016”

Zamzama Gas Plant is located in Taluka Johi District Dadu of Sindh Province, the Gas Field was discovered in 1998 and production started in 2001. The plant is operated by Orient Petroleum Pty Limited (OPPL), (Formerly BHP Petroleum (Pakistan) Pty Ltd.)

OPPL has an overriding commitment and has a well-defined community development management program in place for the neighboring communities around its Zamzama Gas Plant; where it has focused on long term development of local people. Our community development management plan focused on “Provision of quality education, sustainable healthcare facilities, Developing Sustainable livelihood Opportunities, infrastructural development and clean drinking water.

Provision of quality Education has been one of the main programs of our overall CSR initiatives which focused on girls’ education for the local marginalized communities where we operate. Currently OPPL supports two community girl’s elementary schools and five community primary girls’ schools having enrolment of 1089 students with 60% girl’s ratio. 45 women teaching staff is engaged in providing quality education to the students.

The program is implemented through local NGO and owned by the stakeholders including local communities, government education department and civil society.

All seven community schools are supervised by the active and energetic school management committees which have direct influence in all affairs of school development at village level.

OPPL supported education program is a sustainable initiative with transformation impacts in the society, almost fifteen years passed and the program is successfully running in the area. During these years

numbers of students (boys and girls) were graduated from these schools and most of them continued their higher education elsewhere while few of them were engaged in respectable earnings and supporting their families. There are also a few girls who were graduated from OPPL supported schools and now employed as teachers at the same schools.

Another example of sustainability of education program is that OPPL supported primary cum secondary TCF School has been made sustainable by the implementing organization through onetime funding. Also five primary schools which were government closed schools and were re-opened by NGOs with funding of OPPL since last 14 years, these schools were handed over to government education department in 2015, government appointed teachers at five schools which are functional. This is one of the best examples of sustainability of OPPL supported education program.

Providing access to education for all children without any type of discrimination, OPPL team planned and executed a comprehensive enrolment campaign in April-2016

through its implementing NGO within its development and production lease area.

The campaign started from 3rd April and continued for entire month, the plan covers number of activities and sub activities listed below which were carried out in sequential manner within surrounding villages of OPPL supported seven community schools;

- Planning meetings headed by the OPPL representatives conducted with implementing NGOs for enrolment campaign 2016, wherein action plan was devised.
- Village based data collected for all out of school children (boys/Girls) of age 4-9 years by the members of schools management committees and local youth volunteers.
- Women teachers of community schools conducted mothers' meetings of out of school children at school/village to verify the data of out of school and to sensitize mothers for importance of education and enrolment of their children.
- OPPL team along with implementing NGOs conducted meetings with school management committees at all schools to distribute responsibilities among members for conducting Mohalla wise corners meetings for enrolment of out of school children and to plan for broad based community meeting.

- Implementing NGOs conducted broad based community meetings to share the progress of OPPL supported community schools and importance of education especially for girls to mobilize parents to send their children to schools.
- Village level walks/rallies were arranged by NGOs participated by teachers, students, parents, SMC members, NGOs' representatives, village headmen to generate public awareness on importance of education.
- SMC members and village youth volunteers visited few homes in village, accompany out of school children with them in enrolment walk from village to school to celebrate their enrolment so that new children would feel pride being enrolled.
- Registered/enrolled out of school children in school attendance register by school staff.
- Head teachers and SMC chairman to analyze village based children list to check enrolled and left over children.
- Community School staff conducted SMC meetings to get enrolled the left over children from the campaign.

These events of community meetings, village level enrolment walks were attended by the villagers, village headmen, NGOs'

representatives, government education department officials and representatives from OPPL for showcasing the importance of activity and making these efforts sustainable.

In result of enrolment campaign, 118 new children were enrolled in OPPL supported schools with more than 60% girls who otherwise may not have been in schools.

The ownership and sustainability of community projects lies in the involvement of locals in the project decisions and engaging them in all activities carried out to make it success. Also these sorts of initiatives are the tools for strengthening our relationship with local host communities.

**OPPL supported education program is a sustainable initiative with transformation impacts in the society**

The obligatory social welfare is carried out under the DGPC (Director General Petroleum Concession) guidelines. The None Obligatory /Voluntary CSR is discharged as directed and approved by POL top management.

## CSR VISION OF POL

The obligatory social welfare is carried out under the DGPC (Director General Petroleum Concession) guidelines. The None Obligatory /Voluntary CSR is discharged as directed and approved by POL top management.

obligatory CSR, local government concerned authorities are resorted to for ratification/ endorsement of respective project.

### POL VOCATIONAL TRAINING CENTRE

- POL has established a vocational training centre for women in May 25, 2006.
- The aim of establishing a vocational centre is the development of

attitudes, knowledge, and skills for entrepreneurship and self-employment among women of the local community.

- Up till now, more than 1000 women & girls have been trained over the period.
- We have established stitching unit for company staff coveralls at VTC Khaur.

### SPORTS, CULTURAL & RELIGIOUS ACTIVITIES

In pursuance of belief that in addition to

### POL SOCIAL WELFARE SCHEMES:

POL Social Welfare Schemes (Obligatory / Non Obligatory) detail for the year 2015-16 (Annexure – A & B). All schemes identified in consultation with community inhabitants and area notables and under the light of unsolicited applications problem areas. Feasibilities are prepared and POL's management approval is sought citing the number of beneficiaries and a holistic scope of respective project. In the case of

improved physical health, sport plays a primarily positive role in youth development, including improved academic achievement, higher self-esteem, reduction in behavioral problems and better psychosocial concerns, POL has always promoted sports activities among the community with the provision of facilities e.g. Cricket, hockey and football grounds, badminton and volley ball courts etc. POL also has organized & sponsored many tournaments e.g.

- Cricket Tournament (Hard ball and Tennis ball)
- Hockey Tournament
- Volleyball Tournament
- Badminton Tournament

Apart from these games, POL also organizes and support traditional / folk games for the entertainment of local community and to be part of their culture. These games include;

- Tent Pegging
- Bull Race
- Tug of war

The ceremony of 14th August (Independence Day) is also celebrated with great pomp & show at Khaur Workers Club. People from all walks of life including company employees and local community participate in the events conducted on the occasion.

Apart from this, POL facilitates the local community in the organization of “Annual Mehfil - e - Mushaira” at its Workers Club with free transportation & food for participants and attendants.

POL also facilitates local community with the provision of its resources of free transportation, food, electricity and other items in celebration of “Eid Milad-un-Nabi” and organization of “Annual Mehfil-e-Naat” at Khaur.

## ENVIRONMENT

1. POL believes to be responsible stewards of the environment. Our aim is to promote the sigma of “Green Work Environment” in our areas of operations. We strive to leave behind ecosystems that support productive uses for future generations.
2. POL has spent a lot on the improvement of environment in Khaur and surrounding areas with the schemes of;
  - Tree plantation at field and plants
  - Beautification of walkways along the road

3. To promote the culture of environment protection and to develop the habit of gardening, each year, POL also conducts a competition of “Flower Show” amongst its employees who are residents.
- 4- Within the framework of its Health, Safety and Environment (HSE) Management System, HSE Management Standards and Environmental Audit Program, POL has been able to win “Annual Environmental Excellence Award” for the 6th consecutive year.
5. Recent initiative, POL attended inauguration ceremony of plantation arranged by District Government Attock under “Green Punjab Programme” as per direction of Government of Punjab on August 17, 2016. POL donated (167 Nos) Iron Fences to District Government Attock.

PPL as a responsible corporate organization takes initiative to address basic requirements of local communities residing in the surrounding of its producing fields as well as exploratory blocks. In this regard the Company takes various initiatives to provide quality education, healthcare facilities, improve infrastructure and provide potable water.

## CSR Initiative of PPL

Being a believer that education is an agent for change in the society, PPL actively contributes for promotion of education. In this regard, PPL has constructed various academic blocks, provided missing educational facilities i.e. Examination Halls, Science Laboratories, Computer Labs and Multipurpose Halls.

Sui Model School & Girls College, District Dera Bugti and four TCF Schools near Kandhkot Gas Field are examples whereas, a Science Lab and 05 school building were

constructed at Barkhan, Adhi field, Washuk, Khuzdar, Kandhkot. 3000 student chairs donated to Govt. Schools around Adhi Fields. To eradicate illiteracy from the regions, PPL award scholarships under its four year scholarship program to pursue Grade 9 to 12 level education and higher professional education for bachelors and masters level.

Under the healthcare projects PPL holds Surgical Eye Camps for the population of its nearby communities wherein 3,000 patients

are provided free of cost consultation, treatment, medicine, spectacles for distant and near vision and approximately 200 surgeries are carried out for various eye ailments at each camp. Since 2005, PPL is providing free of cost healthcare facilities at 65 villages through its Mobile Medical Units near Sui, Kandhkot and Mazarani Gas Fields wherein more than 150 patients are provided treatment on daily basis. Whereas, annually more than 450,000 patients are provided quality healthcare facility at Sui Field Hospital, PPL Public Welfare Hospital,

Sui and PPL Public Dispensary, Mastala.

Furthermore, realizing importance/benefit of infrastructure development for communities, PPL constructed road from Indus Highway to Punhal Golo village, District Kashmore, Gujar Khan Road to village Thakra, District Rawalpindi along with construction of PCC Road between village Adhi and Mastala in the same district.

Water is a basic requirement of every individual and to fulfill this requirement PPL is providing potable water to the poor population of village Ghaibi Dero, District Kambar-Shahdadkot and at Bhudapur Village Jamshoro.

Beside aforementioned scheme, PPL is taking initiative to provide potable water to population of Ali Sher Barija, Fateh Mohammad Barija, Noor Mohammad Khusira, Master Allahyar (Lohi), Abdur Rahim Lohi, Hussain Brohi, Mohammad Barija and Goth Haji Siddiq Jamali at District Lasbela.

A large population comprising of youth residing in rural areas which is unemployed and becoming a burden on community due to low literacy, poor financial background and unavailability of vocational training opportunities.

To empower male youth, make them self-reliant and productive member of the society PPL awards scholarship to study at the institutes offering City & Guilds (C&G), UK recognized technical diploma. As demand of C&G passed out students is rapidly increasing all over the world this lead towards self-employment.

To create livelihood opportunity for female youth, Vocational Training Centers (VTC) at Sui and Adhi Field providing training of dress making, local hand embroidery and machine embroidery. After receiving training from VTCs, more than 200 females are generating livelihood and contributing to uplift living standard for themselves and their families.

Water is a basic requirement of every individual and to fulfill this requirement PPL is providing potable water to the poor population of village Ghaibi Dero, District Kambar-Shahdadkot and at Bhudapur Village Jamshoro.

# UEP inaugurates landmark project in partnership with Aga Khan University

United Energy Pakistan (UEP) has built a landmark Health Centre in partnership with the renowned Aga Khan University (AKU). The Mother and Child Health Research and Training Centre will facilitate research on maternal health and build the capacity of local healthcare practitioners.

This flagship facility is located in Matiari, one of UEP's concession districts. Matiari has a population of over half a million people scattered across 1,400 villages. According to AKU, more than half of the total births in Matiari take place at home, attended by unskilled birth attendants.

AKU's Centre will support the existing healthcare facilities in the district, enhancing the capacity development of local health workers through its outreach programmes. It will design and implement community development programmes at local health facilities including Basic Health Units, Rural Health Centres, taluka and district hospitals.

The 11,000 square feet facility houses a research laboratory, training centre, data centres and an administration block. More than 95% of the staff at the Centre will be employed from local communities with the ratio of men to women standing at about 25:75. This will boost local employment and enhance women empowerment.

This landmark facility has been inaugurated this year and is now fully operational Tariq Khamisani, UEP's President, during his address at the Health Centre's inaugural ceremony said, "I feel this initiative shall deliver significant and sustainable benefit to our key stakeholders - the local community. I hope this facility will be one of UEP's

legacy projects in the years to come".

Addressing the ceremony, Firoz Rasul, AKU's President, shared that AKU is working tirelessly on the issues of women, newborns, infants and children in the regions it serves. He also applauded UEP's role in contributing towards healthcare initiatives in rural Sindh.

Professor Zulfiqar Bhutta, Founding Director of AKU's Centre for Excellence in Women and Child Health who also attended the inaugural ceremony said, "The Centre will become the hub of the university's research and training in the prevention, diagnosis and treatment of some of today's major mother and child healthcare problems in the country". Dr. Syed Hassan Murad Shah, Director General, Sindh Health Department added that the Health Department, AKU and UEP have been working hand in hand to meet local healthcare needs.

Since the inauguration of the centre, the Bill and Melinda Gates Foundation has provided a five year grant of US \$ 25 million to AKU to prevent deaths of mothers and children in Pakistan. The centre funded by UEP will be part of the programme launched under this grant which will further enhance its capacity to improve maternal health in interior Sindh.

## Success Story: Empowering women, developing society

Hira Rauf Patoli was recently hired as the principal of a primary school located in Matli, district Badin. This school is run by The Citizens Foundations (TCF) and has been constructed with funds donated by UEP. Hira has had a close association with UEP long before she was appointed as principal. She was educated at the Government Girls Degree College in Matli which UEP constructed in 1994. Hira says UEP's interventions for enhancing female literacy have a crucial role to play in the success she enjoys today. She says 'had it not been for the college at Matli it may have been difficult for me to pursue higher education'. Hira graduated from the Matli Degree

College in 2012. She is currently pursuing a Masters degree in Education from the University of Sindh as a private candidate. Passionate about teaching, Hira has been tutoring students even whilst she was studying – she started her teaching career in 2010 at a local high school.

Coincidentally Hira's father has been working at UEP as a third party contract employee since 2001 and supervises driving staff. The proud father of four daughters Haji Abdul Rauf Patoli believes passionately in the importance of educating women. Not just Hira but also her three other sisters have been educated at the Matli Girls Degree College.

Today Hira leads a staff of four teachers all of whom are women. She encourages her friends and neighbors from the surrounding communities to send their daughters to school and the TCF school she works at has an enrolment of about 50% female students. Hira believes 'when you educate a girl you

educate an entire family. By handing a girl a book, you transform the lives of future generations.'

- The total number of schools UEP has funded in partnership with The Citizens Foundation (TCF) includes nine primary and two secondary schools.
- UEP partnered with NGO Aware to provide two solar powered water pumps for villagers living in 'Achro Thar', district Sanghar. 'Achro Thar' literally translates to 'white desert'. The provision of water connections to their homes via the solar powered pumps will transform the lives of the villagers who previously had to walk long distances to fetch portable water.
- UEP donated a 4x4, fully equipped ambulance to the Taluka hospital in Khipro - this ambulance will benefit the villagers who live in this desert area.

At MPCL, social responsibility is all about helping disadvantaged communities in our operational areas through focused CSR interventions both in developing quality infrastructure and improved service delivery in close coordination with local government, local community and civil society organizations to ensure sustainability. MPCL's Corporate Social Responsibility programme is governed by the social welfare guideline issued by Directorate General of Petroleum Concession (DGPC), on 22nd July 2014.

## Mari Petroleum Company Ltd

### Community Investment & Welfare Schemes

MPCL is aware of participative relationship that it shares with society and continuously invests in the interventions related to education, health, water supply schemes, philanthropic donations and communication infrastructure. We are under obligation, as per PCA, to spend a specific amount (per year) for the uplift of local community at each MPCL operated block. Although MPCL is under no CSR obligation at Mari Field Daharki, but being a socially responsible company, the lease area has been spearheading landmark social welfare initiatives in the sectors of health, education, water supply & communication infrastructure since 1985.

Summary of social welfare schemes

completed / ongoing in FY 2015-16, both at MPCL operated block & Mari Field Daharki, is given below:-

### MPCL Operated Blocks – Statutory Obligations

#### COMPLETED PROJECTS

Thirteen (13) projects worth PKR 48 Million completed in FY 2015-16 at MPCL operated JV blocks;

#### Ghauri Block

- Reconstruction of BHU Karunta was launched in March 2015 and successfully completed in record time by 30th October

2015. This project has turned out to be a model of healthcare service delivery in the area & being wholeheartedly acknowledged by MPCL, district administration and local community. MD/CEO inaugurated the facility on 17th December 2015.

- Rehabilitation of Govt Girls High School (GGHS) Pail Mirza: Initiated in 2nd quarter of 2015-16. This project was implemented by Mountain & Glacier Protection Organization (MPCL implementing partner). MGPO and its JV partners (MOL & PPL) completed their obligations in this project by procuring office equipment and school bus for the school worth Rs. 6 million. School bus and office equipment has been handed over to District Govt (Jhelum) on 30th September 2016. In addition, MD (MPCL) announced financial support of Rs. 1 Million (Rs. 1,000,000) to further uplift quality of education at GGHS Pail Mirza and facilitate School Management Committee (SMC) to improve learning outcomes of the students, as well as carry out minor infrastructure improvements in the school.

#### Karak Block

- 18 water bores along with hand pumps in areas around Halini Oilfield
- Water supply schemes at Jawala & Tourgari.
- Construction of 2 water wells at village Kacha Bangikhel and village Manjaghundi

completed with over and above CSR funds.

- Setting up of free pathology lab at Mari Dispensary (Halini).

## Sujawal Block

- Sweet water pipeline length 1700ft & installation of 7 hand pumps at Ashraf Mandrio and Haji Mandrio.
- Rehabilitation of GBHS school Var, Ghorabari, Thatta
- Rehabilitation of Rural Health Centre, Ghorabari, Thatta

## Sukkur Block

- Construction of boundary wall & 2 x Toilets at BHU Ghari Syed, Taluka Khanpur.
- Upgradation of operation theatre at Taluka hospital, Pannu Aqil. Installation of Haematology Analyzer and Anesthesia Machine completed in December 2015
- Donation of one RO plant to Taluka Hospital Pannu Aqil
- Upgradation of Taluka library, Pannu Aqil
- Repair / renovation of GBPS Mureed Machi-Koonj Field

## Zarghun Block

- Hostel facility for students of Zarghun Ghar at Quetta
- Provision of teaching staff / security guards for Primary Schools (Sirki Kach & Dilwani)

## Hanna Block

- Rehabilitation / renovation of existing BHU Hanna & provision of Ambulance.
- Provision of furniture for Govt Girls Primary School, Killi Malak Samand.

## Ziarat Block

- Rehabilitation of water supply scheme at Ziarat Kutch

## ONGOING PROJECTS

Twelve projects worth PKR 53.8 M are in progress at various locations at MPCL operated JV blocks.

### Mari Field Daharki – No Obligation Under PCA

MPCL has been spending huge amount annually on social welfare activities in Mari D&P lease area since inception. In last 15 years, MPCL has spent approximately about Rs. 850 million in delivering optimum healthcare, quality education (both primary & secondary), clean drinking water and better communication infrastructure to the local population of our lease area in Daharki. Moreover, now partnering with a development sector organization, MPCL is committed to further improve service delivery and sustainability of its CSR interventions in coming years. Some of the major projects, MPCL undertook at Mari Field Daharki, are listed below;

- a) Operating 3 Mobile Dispensaries since 1987. These dispensaries are providing basic health care to the local population at their doorsteps for last 3 decades. Annual expenditure on this account is approx Rs. 10 million.
- b) Mother & Child Healthcare Centre constructed at Civil Hospital Mir Pur Mathhelo costing Rs. 12 million and still providing continued support on annual basis (Rs. 5 million / annum).
- c) A Maternity Home, providing mother and child healthcare at U.C Dad Leghari since 2003 costing Rs. 11.37 million.

d) Hepatitis 'B & C' Vaccination Program being one of our major initiatives in the health sector. Rs. 60 million have been spent so far in vaccinating 130,000 people of the area. Treatment of patients, who were diagnosed with Hepatitis B & C was also undertaken.

e) A TB Hospital has been constructed in 2010 for the treatment of Tuberculosis (TB) patients. Total cost of this project is Rs. 7.5 million. Cost of medicines is approximately Rs. 5 million / annum.

f) In the wake of devastating Floods in 2010-11, MPCL carried out flood relief activities at large scale. Four tent villages were setup at Daharki. About 2000 individuals registered in those camps where cooked food & medical facilities were provided to flood affectees. MPCL spent about Rs. 37 million on the relief activities including Rs. 10 million deposited in PM relief Fund.

g) MPCL has so far played a vital role in uplifting educational facilities by constructing a number of new schools, renovation of old school buildings and providing furniture, books and computers etc.

h) A joint venture mega project of Pakistan Chemical & Energy Sector Skill Development Company has established a Technical Training Centre at Daharki. MPCL contribution for this project is Rs. 41 Million (till date).

i) Keeping in view dire need of the area, a state of the art Mari Education and Medical Complex (MEMC) has been established in December 2013 at Daharki, Sindh. Total cost of this mega project is

Rs. 180 million. The school & dispensary are providing quality free education (KG-X) and basic health care to the local community.

j) MPCL has spent huge amount on Communication Network in Daharki field area for the benefit of locals. So far, MPCL has developed a road network of 400 KM at various locations in Mari Field Daharki.

k) Clean Drinking Water is being provided to the local community through water bowsers on a regular basis.

## Production Bonus At Sujawal

On commencement of commercial production at Sujawal X-1, MPCL paid production bonus amounting PKR 62.7 Million to district governments of Sujawal & Badin to reinforce / support their respective social welfare initiatives.

## Engagement Of Implementing Partners

In order to improve service delivery & sustainability of our CSR projects, MPCL has taken onboard two development sector organizations i.e. Pakistan Poverty Alleviation Fund (PPAF) & Mountain & Glacier Protection Organization (MGPO) as our implementing partners / CSR consultants in Balochistan & Sindh, respectively.

### a. Engagement with MGPO at Mari Field Daharki:

MPCL entered into a partnership with

MGPO on 3rd August 2016 to streamline our CSR programme at Mari Field Daharki. Total duration of this partnership is 3 years. In first year, MGPO is piloting two projects i.e. Maa Mobile (a mother and child health care system) and Mari Early Education Tool (an early education tool to improve learning outcomes of primary grade students) wherein desired / agreed outcomes would be achieved through IT related tools. In addition, MGPO is also setting up a Health Information Management Information System (HMIS) across all health facilities at Mari Field Daharki.

### b. Mari – IBA Scholarship Programme:

Mari Petroleum Company Limited (MPCL) has entered into a partnership with IBA Sukkur by signing a MoU on 23rd August 2016, whereby Mari Petroleum Company Limited (MPCL) will provide scholarship funds (through its implementing partner i.e. Mountain & Glacier Protection Organization – MGPO) for financial assistance to Sukkur IBA for its needy and meritorious students belonging to different Union councils of district Ghotki.

In the first phase, MPCL is providing financial assistance to 12 students. Under this partnership agreement, MPCL will provide 50% scholarship funds of total amount Rs. 1.1 Million on account of tuition fees, boarding & lodging expenses for each student for total of (04) four years degree programs.

### c. Engagement with PPAF at Balochistan:

On 5th of May 2016, MPCL launched

“School Improvement Program” pilot at Balochistan in collaboration with lead institution for community-driven development in the country – Pakistan Poverty Alleviation Fund (PPAF) in two districts Quetta & Harnai. Pilot project includes rehabilitation of three Government schools; one in Hanna Block (Quetta) and two in Harnai Block (Harnai & Ziarat). Total cost of this pilot is Rs. 14 Million & duration is approximately 6-8 months. After successful completion of this pilot, we are planning to take this partnership to the next level undertaking multi-sectoral CSR projects in a sustainable manner.

### d. Introduction of ICT based Learning Program (Tele-Taleem):

MPCL & PPAF have collaborated with Tele-Taleem - a social enterprise focused on delivering innovative and cutting-edge solutions for improved educational services delivery at multiple levels – to provide core education services including; teacher trainings and direct teaching support delivered remotely using ICT components at Govt Girls High School, Harnai (one of the three schools of School Improvement Program). Incorporated in 2010, TeleTaleem has developed, tested and deployed Pakistan’s first advanced learning environment which leverages ICT to enable users connect with quality learning sources and practices, unrestricted by geographical, social, institutional and time boundaries. It is a cross cutting initiative, able to serve all educational segments – from primary to tertiary and from teacher education to technical and vocational education. Total cost of this program is Rs. 2.8 Million.

MOL Pakistan, member of MOL Group, is in its seventeenth year of presence in Pakistan. As a socially responsible company, MOL Pakistan has always focused on the welfare of the area where it operates. During 2016, the following projects were undertaken under the umbrella of Corporate Social Responsibility and Welfare Activities:

## CSR / Social Welfare Activities of 2016

**F**oundation Stone Laying Ceremony of Civil Dispensary, and Lining of Water Course Project at Annear Chena, District Hangu

After the discovery of Mardan Khel -1, on January 25th, 2016, the foundation stone laying ceremonies for Lining of Water Course/Water Storage Tank, and construction of civil dispensary were held at village Annear Chena in District Hangu. Member National Assembly Hangu, Mr. Khyal Zaman was the Chief Guest, and while laying the foundation, he appreciated the role of MOL Pakistan in complementing government's endeavors for providing basic amenities to the local communities. Both the projects will cost around PKR 12.5 million and will serve the local communities in the area for the provision of drinking water and addressing health issues.

### Foundation Stone Laying Ceremony of Check- Dam at Ahmadi Banda, District Karak

Keeping in view the scarcity of water, MOL Pakistan inked an agreement with the Agriculture Department, Government of Khyber Pakhtunkhwa in 2014 for the construction of Water Harvesting Structures/Check-dams to harness the rain water of the area. As a result, ten such structures have already been completed in Tal block, while construction of two check-dams with an estimated cost of PKR .20 Million are in progress in Karak and Hangu Districts. A Public Hearing Ceremony/ Foundation Stone Laying Ceremony of a

Check-Dam was held in District Karak on 20th May, 2016, and a large number of local elders participated in the event. Mr. Nasir Khan Khattak, Member National Assembly (MNA) Karak, laid the foundation stone of the project and addressed the gathering.

### Support to District Government Kohat for Anti-Dengue Drive in District Kohat

In order to counter the upcoming menace of dengue virus, District Government Kohat requested MOL Pakistan to contribute in countering the menace of dengue virus. As a result, an amount of PKR 4 Million was released to District Administration Kohat. The amount is being utilized for awareness campaigns, trainings, purchase of Dengue Kits and different equipment for the Dengue Ward and laboratory in District Headquarter Hospital Kohat. The project is on-going and will help control the disease in the district including operational areas of MOL Pakistan.

### Wheelchair Distribution Ceremony in Kohat

In order to support disabled people, a wheelchair distribution ceremony was held on 9th May, 2016, at Darmalak Village of Lachi Tehsil in District Kohat. MOL Pakistan sponsored thirty five (35) wheelchairs, and distributed among the physically handicapped individuals of the area. The ceremony was attended in a large

number by people with disabilities, local elders and elected representatives. Member National Assembly (MNA) Kohat, Mr. Shehryar Khan Afridi was the Chief Guest.

### MOL Pakistan Sponsored Sports Activities in the operational area

As part of the CSR Strategy and to engage the local youth in healthy sports activities, MOL Pakistan sponsored two activities in Kohat and Hangu Districts in Tal Block. MNA Kohat and Hangu were Chief Guests at the opening and completion ceremonies, respectively. Both activities were attended by a large number of people, appreciating MOL Pakistan for engaging the local youth in positive activities.

MOL Pakistan also sponsored the 6th T-20 Cricket Series for the Physically Handicapped Persons. The final of the series was played in Islamabad at the Shalimar Cricket Ground on 27th January, 2016.

On the final day, Managing Director / CEO, MOL Pakistan, Mr. Akos Grosz was the Chief Guest along with H.E. Mr. Istvan Szabo, the Ambassador of Hungary, as Guest of Honor. The closing ceremony was participated by a large number of dignitaries from the city. Speaking on the occasion, MD / CEO MOL Pakistan said, "MOL Pakistan is sponsoring such events for the last seven years and would continue its support in future as well." Mr. Grosz extended heartiest felicitations to the association for organizing such an event and all the teams. At the end of the event, shields were presented to the winning team and the Chief Guest, by the organizers of the event.
