## Message from the Editorial Board, PPEPCA

Welcome to the 19th Issue of Pakistan Petroleum Exploration and Production Companies Association's (PPEPCA's) Corporate Social Responsibility (CSR) Magazine for 2022. As an important means to share information and engage a wide audience, both nationally and internationally, this magazine also serves as a means to promote CSR within Pakistan. Therefore, this magazine provides our national and multinational member companies with the opportunity to report on their social investments, both obligatory and voluntary, through various CSR initiatives and activities.

This particular issue of the magazine is dedicated to the successful and timely response to the COVID-19 pandemic through the CSR initiative and activities of our national and multinational member companies in the exploration and production sector of the oil and gas industry in Pakistan.

While the on-going COVID-19 pandemic initially presented extremely challenging circumstances to the sector and industry, our member companies successfully responded to the evolving situation, that to this day still has far reaching ramifications for how our member companies operate and conduct business in the country. Nonetheless, adjusting to a new normal, our member companies continue to develop their response to the COVID-19 pandemic, as we face successive waves of new variants in this global health crisis. Championing this crisis has only made our member companies more resilient and more dynamic, and we look forward to their successful operations and business continuity despite whatever challenges may come!

Editorial Board, PPEPCA  
(Jamil Adil)

## Message from Chairman, PPEPCA

I am very pleased to share with our readers another issue of PPEPCA's CSR Magazine for 2022.

While 2021 were certainly difficult years for everyone, with the continuation of the COVID-19 pandemic, for another consecutive year, the oil and gas industry of Pakistan rose to the challenge and quickly adapted to a new normal.

It is the thanks to our collective efforts across the oil and gas industry, and the exploration and production sector in particular, that we made successful business continuity possible without disruption to our operations that power Pakistan's energy demands. We worked especially hard during the past few years to meet these demands that help fuel the nation.

In doing so, we remain committed to our Corporate Social Responsibility (CSR) objectives as we conduct business and operate in a safe and secure manner, keeping everyone's health and well-being in mind.

We look forward to maintaining our high standards as we continue to grow and develop, both the industry and sector, through our nation and multinational member companies operating in Pakistan.

**Mr. Faheem Haider**

Managing Director (MD) / Chief Executive Officer (CEO)  
Mari Petroleum Company Limited (MPCL)

## Message from the Secretary General, PPEPCA

The Pakistan Petroleum Exploration and Production Companies Association (PPEPCA) is an important collection of national and multinational member companies working in the exploration and production sector of Pakistan's oil and gas industry.

In Pakistan, both the industry and the sector, remain optimistic as we continue to develop advanced protocols, procedures, and best practices that ensure the safety and well-being of everyone despite the on-going pandemic. We come together to share with our readers, important insights in how we operated and conducted business despite these difficulties and challenges. And while we all have faced these difficulties and challenges, both personal and professional, due to the pandemic, it is indeed gratifying to see how well we managed to overcome them.

We look forward to even more progress as our member companies continue to successfully operate in Pakistan, with the aim of meeting the energy needs of the country.

**Mr. Mazhar Farooq**

Secretary General  
PPEPCA

## Government Holdings Private Limited's (GHPL) Response the COVID-19 Pandemic

Government Holdings Private Limited (GHPL), Pakistan's fifth-largest exploration and production company, as part of a caring community sympathizes with people who have been afflicted by the pandemic, spreading beyond health boundaries, disrupting peace and prosperity, and affecting every household in the country and beyond.

During the pandemic, GHPL has gone to great lengths to guarantee that safety came first while actively giving the greatest complete holding solutions to the oil and gas industry in Pakistan. Precautions, disinfection procedures, and social distancing guidelines were all followed zealously at our offices.

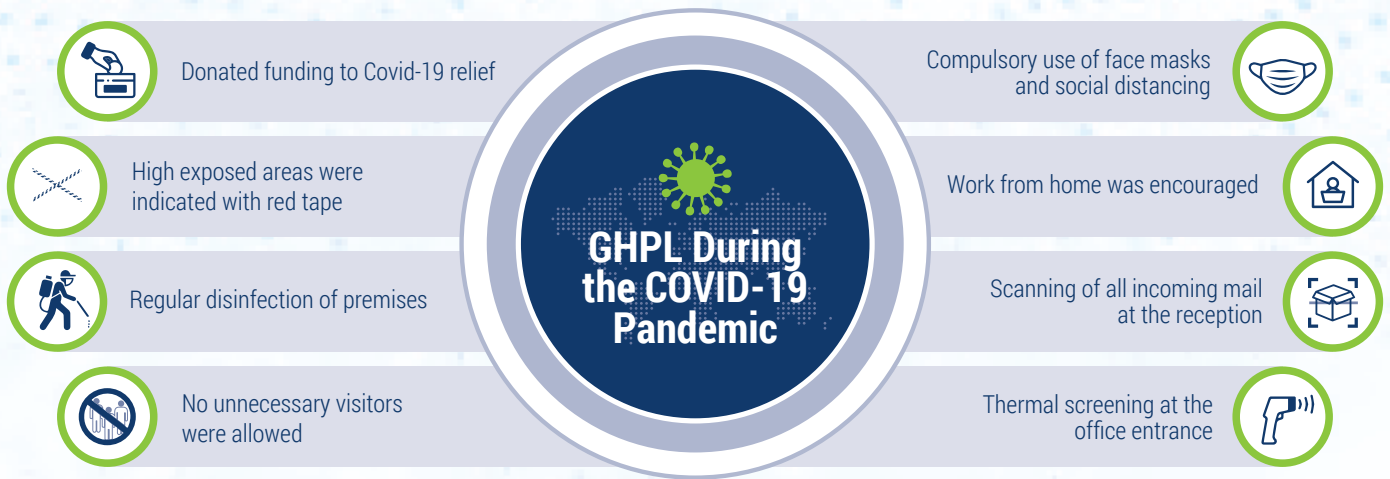

GHPL, a partner to several local and multinational oil and gas companies, steadfastly continues company-sponsored corporate social responsibility (CSR) efforts in the face of hardship, which were needed more than ever, with the pandemic bringing global warming and sanitation problems to the forefront of sustainability issues facing the world.

GHPL takes pride in its successful uninterrupted commercial operations despite the challenges posed by the pandemic and provides a message of optimism to society. GHPL intends to dutifully persevere with our CSR goals for many years to come.

  
GHPL takes pride in its successful uninterrupted commercial operations despite the global economic downturn due to the pandemic

### Focusing on Diversity and Inclusion (D&I):

GHPL also takes pride in having a diverse workforce with a strong focus on diversity and inclusion (D&I). To create a fair, healthy, and high performing organization, GHPL hosted workshops during the year to engage employees and help make everyone feel appreciated and connected in our company, where people are heard, accepted, and valued.

### Preventing Workplace Harassment:

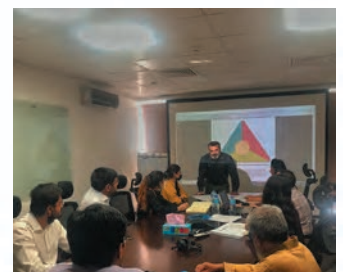

GHPL places a strong emphasis on respect and safety in the workplace. Management ensures that mandatory harassment prevention training takes place regularly as part of our human resource (HR) compliance in order to educate employees and maintain a zero tolerance policy to workplace harassment.

### Participating in Green Pakistan:

GHPL's participation in afforestation efforts, as well as other social awareness programs, have been a highlight for the year. The tree plantation drive was carried out by GHPL, in coordination with the Capital Development Authority (CDA), for the sustainable development of the country.

### Contributing to a Cleaner Pakistan:

Inspired by the Government of Pakistan's "Clean and Green Pakistan" goals, GHPL voluntarily engaged in a cleaning campaign with the objective to keep communities clean and free of municipal waste.

## From Challenges to Opportunities: Mari Petroleum Company Limited's (MPCL) Response to the COVID-19 Pandemic

During the pandemic, Mari Petroleum Company Limited (MPCL) demonstrated great resilience in these difficult times and continued its operations as a "national service," by designing and implementing high-level protocols to deal with the pandemic and ensure operational continuity. There was a paradigm shift in business continuity models and efforts were made to safeguard internal as well as external stakeholders from the adverse impact of the pandemic. A robust remote working framework was immediately implemented and MPCL managed to maintain its exceptional record of providing uninterrupted gas supply to its customers.

As much as we sheltered our employees and customers from COVID-19, there was a dire need to focus MPCL's corporate social responsibility (CSR) program to serve underprivileged and marginalized communities, which were significantly affected by COVID-19. With MPCL management's vision and commitment to the well-being of all its stakeholders, ongoing projects related to health and water supply continued despite many challenges to serve communities. Projects like water filtrations plants, tuberculosis (TB) and asthma clinics, Mother and Child Centre remained operational. In addition to providing ventilators and polymerase chain reaction (PCR) testing kits to various hospitals, MPCL launched two high-impact projects with the aim of supporting the government's pandemic response.

### Mari Mobile Dastarkhawan (MMD)

MPCL collaborated with Comprehensive Disaster Response Service (CDRS) and launched Mari Mobile Dastarkhawan (MMD) in Rawalpindi and Islamabad. MMD is a customized food truck that distributes freshly cooked meals to around 600 people on a daily basis. Locations are dynamic and different areas are visited to maximize distribution to those in need while maintaining their dignity and respect. MMD aims to distribute meals to over 200,000 children, women, and daily wage earners on annual basis. During the month of Ramadan, Iftars and dinners were also served to around 500 people on daily basis, along with the distribution of ration packs. With this initiative, MPCL is playing its part in tackling the dual challenge of poverty alleviation and combating malnutrition in Pakistan – especially during the challenging times of the pandemic.

**MPCL demonstrated great resilience in these difficult times and continued its operations as a "National Service", by designing and implementing high-level protocols to deal with the pandemic and ensure operational continuity**

## “SARBULAND” – MPCL Initiative for Economic Empowerment

Pandemic related lockdowns put a halt to most of the economic activities. Small businesses were affected in particular. With the aim of regenerating economic activity and helping out small businesses/entrepreneurs, MPCL launched “Sarbuland Microloans Scheme” in collaboration with Akhuwat Islamic Microfinance. The project was executed in District Mianwali (MPCL operational area), under which interest free microloans of Rs. 50,000 were disbursed to small business owners and entrepreneurs for economically viable small-scale ventures, as verified by Akhuwat’s assessment team. The recovery period of these loans is 12 months. Being an inclusive venture, special emphasis was laid on the inclusion of women entrepreneurs to make them economically independent.

Dr. Amjad Saqib, founder and Executive Director of Akhuwat, appreciated the initiative and contribution of Mari Petroleum to support underprivileged communities and hoped to see continuation of such joint efforts for building long-term and strategic partnerships.

MPCL remains committed to delivering on its existing CSR projects and continues to engage with all communities within its sphere of operations.

MOL Pakistan Oil and Gas Company B.V.  
**MOLGROUP**

## MOL Pakistan's COVID-19 Response: Caring for Our Colleagues and Our Communities

MOL Pakistan was one of the first companies to respond to the global health crisis by providing millions of rupees in funding for the setup of quarantine centers in Islamabad.

MOL Pakistan's response to the pandemic through our corporate social responsibility (CSR) initiatives illustrate how we have stood with the people of Pakistan during these challenging times and continue to support anti-pandemic efforts in the fight against the virus.

By strictly maintaining health and safety protocols and operating procedures at our facilities and at our headquarters in Islamabad, MOL Pakistan is committed to keeping business continuity throughout the pandemic in order to meet the energy demands of the country. Likewise, during the pandemic, we have maintained our commitment to corporate social responsibility (CSR) initiatives in our communities where we operate.

MOL Group is an integrated, international oil and gas company, active in over 30 countries with a dynamic international workforce of over 25,000 employees. We are well equipped to continue our operations during any situation, and working in Pakistan, we are fully aware of the country's energy demands. As such, MOL Group provides full anti-pandemic support and technical guidance to MOL Pakistan by continuously ensuring that best practices are developed and implemented in order to maintain uninterrupted operations.

With more than 500 colleagues working with MOL Pakistan, we have been strictly following health and safety protocols and procedures since the start of the pandemic in 2020. With these robust health and safety efforts to help keep everyone safe, we have continued our operations without disruption:

-  High levels of screening and testing have been conducted across our operations.
-  Increased cleaning and disinfection with special attention to high-touch surfaces and frequent fogging.
-  Increased food safety measures.
-  Comprehensive travel protocols and restrictions maintained.
-  Encouraged frequent hand-cleaning with hand sanitizer or soap and water.
-  Maintained social distance and self-isolation.
-  Work from home implemented with reduced in-person attendance throughout operations.
-  Personal protective equipment (PPE) such as face masks, gloves, and goggles, as well as cleaning and disinfection products have been provided to our colleagues and our communities.
-  Medical doctors and healthcare providers were available around the clock to closely monitor the health and wellbeing of all colleagues.
-  Improved health insurance policies for ease of colleagues.
-  Regular health and safety reporting conducted on a daily basis with detailed macro and micro analysis of situation monitoring and evaluations at all levels; global, country, provincial, and district.

In 2020, MOL Pakistan was one of the first companies to respond to the global health crisis by providing funding for the setup of quarantine centers in Islamabad. As specific hospitals are designated for the admission and management of suspected and confirmed cases of COVID-19, which are at times overstrained at maximum capacity with COVID-19 patients, separate community quarantine facilities are an important element to containing the spread of COVID-19. To aid efforts to combat the pandemic, MOL Pakistan donated PKR 3 million to support four quarantine facilities located in Islamabad, where the company is headquartered.

The rate of infection can be significantly lowered with the use of personal protective equipment (PPE) combined with proper training in infection control by our healthcare providers carrying the burden of the pandemic. Therefore, PPE, including face masks, gloves, and gowns, are used daily by our healthcare providers to protect themselves, patients, and others. However, due to shortages and the surge in price, making it even

more difficult to acquire PPE in 2020-2021, our healthcare system faced a tremendous challenge. Therefore, MOL Pakistan donated PPE and hand sanitizers to our communities located in the districts of Karak, Kohat, and Hangu located in the province of Khyber Pakhtunkhwa. Subsequently, since the start of the pandemic, MOL Pakistan has donated thousands of pieces of personal protective equipment (PPE) and hand sanitizer to help strengthen anti-pandemic efforts and to help support compliance with government issued standard operating procedures (SOPs) to contain the spread of coronavirus.

Now in 2022, as we adapt to a new normal and continue to develop our response to the evolving global health crisis, we look forward to shifting our focus back to CSR initiatives prioritizing our most valuable asset – people – our colleagues and our communities. In doing so, we continue to support CSR initiatives based on health and education, water aid, infrastructure development, and the empowerment of women and girls, as well as the empowerment of people with disabilities.

**“As a socially responsible company we are with the people of Pakistan during these challenging times and continue to support anti-pandemic efforts in the fight against the spread of the virus in the country.”**

# United Energy Pakistan's (UEP) Approach to CSR

United Energy Pakistan (UEP) is a subsidiary of United Energy Group (UEG), and is committed to contributing to the development of local communities by investing in corporate social responsibility (CSR) projects focusing on four key areas: education, health, potable water, and capacity building for sustainable income generation.

All exploration and production companies in Pakistan are obligated to spend on social welfare projects based on production. UEP not only deposits the obligatory social investment amount but also earmarks a sizeable budget for discretionary CSR projects.

## Health

In 2020, we contributed approximately US \$840,000 for COVID-19 related medical supplies from our discretionary CSR budget. To support the national pandemic response, we provided medical supplies of about US \$400,000 to the National Disaster Management Authority (NDMA). These supplies included protective health gear for frontline medical workers and testing kits.

In the province of Sindh, where we explore and produce oil and gas, we donated medical supplies worth about US \$400,000 to the Indus Hospital and Health Network, the Aga Khan University (AKU) Hospital, the Jinnah Post Graduate Medical Center (JPMC), and the Sindh Institute of Urology and Transplantation (SIUT). These organizations are working alongside the provincial government to combat the virus.

In the provinces of Sindh and Balochistan, we also contributed protective equipment worth over US \$42,000 for frontline medical workers. Our pandemic-related donations include about US \$50,000 generously raised by our employees from their salaries. Our pandemic response builds on our long history of supporting our Country during difficult times. Continuing our efforts to provide quality healthcare for local communities, we donated a solar power system for the dialysis center in Civil Hospital Sanghar District. We also contributed essential medical equipment for a Rural Health Center (RHC) in Tando Allahyar District, renovated a Basic Health Unit (BHU) in Qambar Shahdadkot District, and constructed six dispensaries in Khairpur District.

## Education

In 2020, UEP funded the construction of a secondary school in partnership with The Citizens Foundation (TCF), a leading non-governmental organization (NGO) focused on imparting quality education to underprivileged communities. Construction of this secondary school started in 2019, bringing the total number of primary and secondary schools established in partnership with TCF to 17.

Our company also renovated 24 government schools in the districts of Sanghar, Jamshoro,

Qambar Shahdadkot, Dadu, and Khairpur. We funded the tuition fees of 28 local boys at the Army Public School and College Pano Aqil in Sukkur District and six girls at the Quaid-e-Azam Rangers School and College Chundiko in Khairpur District. UEP awarded scholarships to these students in 2019, and they are currently in their second year of study. Furthermore, UEP continued to support the operating expenses of four local schools located in the districts of Sanghar, Tando Allahyar, and Matiari.

## Potable Water

To provide clean drinking water to local communities, we installed eight solar-powered reverse osmosis plants in the districts of Badin, Sanghar, and Ghotki. We also set up 22 water reserve ponds in Badin District and upgraded five water supply schemes in the districts of Sujawal, Qambar Shahdadkot and Khairpur.

Provision of protective health gear for frontline COVID medical workers and testing kits support to provincial & federal government.

A newly constructed dispensary in district Khairpur

Renovated Basic Health Unit in district Qambar Shahdadkot

The construction of a secondary school in partnership with The Citizens Foundation

Renovated Government Primary Schools in district Dadu

Solar powered RO Plant installed in district Sanghar

# Oil and Gas Development Company Limited's (OGDCL) Fight Against COVID-19

Oil and Gas Development Company Limited (OGDCL), a leading socially responsive exploration and production company, stood with the government and people of Pakistan. OGDCL's management and employees believed in fighting against the pandemic together.

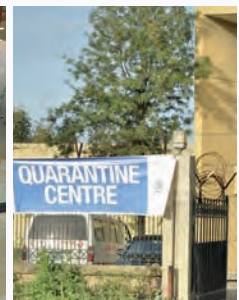

OGDCL set up a Quarantine Centre at a hostel of the Oil and Gas Training Institute located in Sector I-9 of Islamabad. The OGDCL Quarantine Centre was provided 30 rooms with all the medical care required to treat COVID-19 patients. Also provided to the OGDCL Quarantine Center, to meet emergency needs, was a fully equipped ambulance with a ventilator. Other resources and services at the OGDCL Quarantine Centre included medication, meals, mineral water, personal protective equipment, sanitizers, and masks for patients.

At the request of district administration and community leaders, OGDCL provided masks, hand sanitizers, infrared thermometers, and PPE kits along with food ration bags to various hospitals and communities in its areas of operation.

And all employees donated their two-day salary to the Prime Minister's COVID-19 Pandemic Relief Fund established to mitigate the negative financial impact the global health crisis.

Since the start of the pandemic, OGDCL offices throughout the country are regularly disinfected. OGDCL also provides employees with hand sanitizers and face mask since day one of the pandemic, despite the shortage in local markets in early days. Digital / infrared thermometers were placed at entrances of all offices. Employees suffering from Corona Virus have been granted fully paid leaves and new health insurance policies have been implemented. Regular Covid-19 screening tests have also been conducted right from the start of the pandemic. The medical services department of the company extended their support throughout the pandemic and helped all employees and their families with 24/7 support through their visits to the OGDCL Medical Center or remotely through phone calls.

OGDCL recently opened its doors for vaccination in its Medical Centre located in Sector F-8 of Islamabad. The OGDCL Medical Centre is open to employees and their families, and the general public. Thus far, a large number of people have been inoculated at the OGDCL Medical Centre thanks to the company's commitment to anti-pandemic efforts.

# **Polish Oil and Gas Company's (POGC)** **Meaningful Engagement**

Polish Oil and Gas Company (POGC) operates in Pakistan as a branch office of PGNiG Group Poland, which has a majority shareholding of the Polish Government.

Polish Oil and Gas Pakistan (POGC) firmly believes in engaging meaningfully with its primary and secondary stakeholders around and outside its area of operations. We work very closely with the local communities and engage them at all levels of project operation enhancing their means of livelihood by creating employment and entrepreneurship opportunities, and by improving the health and education system. We liaise very diligently with local authorities, politicians, and public sector representatives to ensure efficient use of both obligatory and non-obligatory funds.

We believe that by engaging positively with our stakeholders, we do not only create a win-win situation, but we play a key role in building the society at large. POGC, with its relatively limited resources, has established conducive work relationships and enhanced inter-operability with the communities living around the block and the concerned authorities. We carry out need assessment surveys and facilitation sessions to identify community needs to ensure transparency, accountability, and sustainability. A dedicated team of development and liaison management professionals have been deputed at the field level to ensure smooth and efficient collaboration. Resultantly, POGC operations have attained unprecedented success in terms of technical and production development, social cohesion, and environmental compliance.

Rehabilitation Works for Non-Functional Water Schemes in Village Chappar Jamali, Chinni and Tando Rahim Khan

Provision of Tents to Flood Victims in UC-Wahi Pandhi and UC-Chinni

Distribution of Ration bags in the PGNiG operational area during the lock down due to COVID-19

Conducting Free Eye Camps for People from different villages around our concession area

Provision of Drinking Water for local Communities

Restoration of 5Km Road damaged by floods

## Pakistan Petroleum Limited's (PPL) Response to the COVID-19 Pademic

As a responsible corporate citizen, Pakistan Petroleum Limited (PPL) remains committed to improving the quality of life for deserving communities since the beginning of its commercial operations back in the mid-1950s. Over time, the company's Corporate Social Responsibility (CSR) programme has widened both in scope and outreach. During the last six decades, PPL has focused on need-based, long-term development projects in education, healthcare, livelihood generation and infrastructure development for deserving local communities around operational areas as well as in urban centres.

The company's growing contribution for its vibrant CSR programme has been widely recognized by local communities, partners, government as well as the reputable Pakistan Centre for Philanthropy (PCP). To this end, PPL has received the top Corporate Philanthropy Award for highest volume of donations for 16 consecutive years as adjudged by PCP.

As part of its CSR programme, the company has recently launched a country-wide Covid-19 mass vaccination drive to support the government's efforts to immunize the population against the pandemic. To this end, PPL has engaged three

reputable non-governmental organizations (NGOs) – Al-Shifa Trust Eye Hospital, HANDS Pakistan, and Jaffriya Disaster Management Cell Welfare Organization (JDC Foundation Pakistan) – since October 2021. This vaccination drive is in addition to the company's ongoing in-house vaccination campaign around operational areas to collectively reach a target of nearly 150,000 individuals. These organizations are carrying out the vaccination drive, using mobile vaccination teams, in districts Jacobabad, Shikarpur, Thar, Badin and Dadu, and Karachi in Sindh, District Chakwal in Punjab, District Kohat in Khyber Pakhtunkhwa, and District Gilgit in Gilgit-Baltistan.

Earlier in July, PPL initiated a vaccination campaign using its existing healthcare facilities including Sui Field Hospital, Public Welfare Hospital, Sui as well as mobile medical dispensaries, for local communities around operated fields. These facilities are reaching out to target communities in Sui Town, District Dera Bugti, Tehsil Gujjar Khan, District Rawalpindi, and District Attock in Punjab as well as districts Kashmore, Sanghar, Kambar Shahdadkot, Karachi in Sindh. So far, nearly 60,000 individuals have been vaccinated through these campaigns in 17 districts.

## Pakistan Oilfields Limited's (POL) Response to the Pandemic

### Corporate Social Responsibility (CSR)

Pakistan Oilfields Limited (POL) has taken a leadership role in contributing to society through a structured social investment program. Investing in the communities where we operate is not just a demand that must be met; it is philosophy that we believe. As part of our core values, POL places tremendous importance on contributing to the wellbeing of communities where we operate.

Our CSR initiative covers a wide spectrum of activities from the construction of roads, concrete streets, cause ways and bridges to building schools and colleges, health care centers and hospitals, sport events and provides support to humanitarian and social work organizations.

### Community Development and Support

POL has a proud history of corporate giving and supporting community projects. We realize the importance of strengthening and developing human resource. We implemented a visionary Community Development Program that focuses on providing education, supporting healthcare, and financing infrastructure projects including supplying free clean water. These are some of the ways we try to support our community.

### CSR Role in COVID-19

When COVID-19 broke out in Pakistan, POL generated a surveillance form for employees and gathered information on contact with COVID-19 positive patients, people who came from abroad, and anyone with symptoms of corona virus from all employees at the fields and the head office.

A total of 88 cases were suspected at POL Fields to date, of which 52 cases were positive, and 36 cases were found negative. Without any loss, all 52 positive cases recovered thanks to the help of doctors and paramedic staff at the POL Hospital. Right now, POL does not have any COVID-19 positive cases at POL fields.

POL established a COVID-19 Vaccination Center at Khaur with the help of the district government of Attock by providing facilities and maintaining its smooth operations. This vaccination center will help to reduce the workload of the Pindigheb vaccination center. At the same time, it will be much easier for the general public to get vaccinated in less time with shorter travel time.

**52 positive cases recovered thanks to the help of doctors and paramedic staff at the POL Hospital. Right now, POL does not have any COVID-19 positive cases at POL fields.**

# POL's Safety Measures Taken During COVID-19

- 

-Staff is almost fully vaccinated, with their dose being completed over time.
- 

Distributed an internal circular to all employees regarding basic information about COVID-19 and prevention against it.
- 

Thermometers arranged for all main entrance gates for regular monitoring of all staff, with no entry without a face mask.
- 

Sanitization tunnels installed at main entrances gates for the prevention and spread of COVID-19.
- 

Distributed pamphlets from time to time to all employees about:

  -  Proper hand washing procedure
  -  Preparation procedure for bleach solution for home and office safety
  -  Home isolation instructions
  -  Basic protective measures against the Corona Virus
  -  Precautions taken by COVID-19 positive patient
- 

Extensive trainings provided from time to time about COVID-19 safety precautions have been carried out.
- 

Provided sanitizer bottles to all employees in offices and operational areas.
- 

Installed hand washing facilities in different locations at offices, operational areas, and main gates.
- 

Social distances maintained at messes, residential areas, offices, and operational areas by reducing 50% staff.
- 

Medical screening by POL Hospital of staff coming from rotation, different locations, or weekends to resume their duties.
- 

Daily disinfectant spray has been carried out at messes / living rooms/ residential colony / operational and office areas.
- 

Quarantine room designated for staff in all fields / SCR Rig who have any COVID-19 symptoms.
- 

Monthly survey regarding COVID-19 has been carried out to ensure the implementation of safety measures.
- 

Ensured social distancing though 50% student attendance in company operated school and college, with reduced student's fees during closures.
- 

POL Hospital Khaur carried out outpatient services through paramedical staff.
- 

Distributed thousands of food ration bags during lock down situations among poor and needy families through the District Government of Attock and Chakwal.
